Michael Hoelscher

Quotes by Sarah J. Maas Lilith Regan, 2020-04-12 Libraries were full of ideas--perhaps the most dangerous and powerful of all weapons. You could rattle the stars, she whispered. You could do anything, if only you dared. And deep down, you know it, too. That's what scares you most. No. I can survive well enough on my own-- if given the proper reading material. When you spend so long trapped in darkness, Lucien, you find that the darkness begins to stare back. Don't feel bad for one moment about doing what brings you joy.

Reading Still Matters Catherine Sheldrick Ross, Lynne (E.F.) McKechnie, Paulette M. Rothbauer, 2018-03-01 Drawing on scholarly research findings, this book presents a cogent case that librarians can use to work towards prioritization of reading in libraries and in schools. Reading is more important than it has ever been—recent research on reading, such as PEW reports and Scholastic's Kids and Family Reading Report, proves that fact. This new edition of Reading Matters provides powerful evidence that can be used to justify the establishment, maintenance, and growth of pleasure reading collections, both fiction and nonfiction, and of readers' advisory services. The authors assert that reading should be woven into the majority of library activities: reference, collection building, provision of leisure materials, readers' advisory services, storytelling and story time programs, adult literacy programs, and more. This edition also addresses emergent areas of interest, such as e-reading, e-writing, and e-publishing; multiple literacies; visual texts; the ascendancy of young adult fiction; and fan fiction. A new chapter addresses special communities of YA readers. The book will help library administrators and personnel convey the importance of reading to grant-funding agencies, stakeholders, and the public at large. LIS faculty who wish to establish and maintain courses in readers' advisory will find it of particular interest.

The Ages of Homer Jane B. Carter, Sarah P. Morris, 2013-12-18 Homer's *Iliad* and *Odyssey* have fascinated listeners and readers for over twenty-five centuries. In this volume of original essays, collected to honor the distinguished career of Emily T. Vermeule, thirty-four leading experts in Homeric studies and related fields provide up-to-date, multidisciplinary accounts of the most current issues in the study of Homer. The book is divided into three sections. The first section treats the Bronze Age setting of the poems (around 1200 B.C.), using archaeological evidence to reveal how poetic memory preserves, distorts, and invents the past. The second section explores the early Iron Age, in which the poems were written (c. 800-500 B.C.), using the strategies of comparative philology and mythology, literary theory, historical linguistics, anthropology, and iconography to determine how the poems took shape. The final section traces the use of Homer for literary and artistic inspiration by classical Greece and Rome.

Ignatius of Loyola and Thomas Aquinas Justin M. Anderson, Matthew Levering, Aaron Pidel, 2024 Though the relationship between Jesuits and Dominicans has historically been marked by theological controversy, Ignatius of Loyola, the founder of the Jesuits, shows remarkable affinity for the Thomistic tradition, the tradition advanced above all by the Dominican order.

When writing the Jesuit Constitutions, in fact, Ignatius made Thomas Aquinas's *Summa Theologiae* the primary textbook for Jesuit theological formation. The contributions to this volume?originating from Jesuits, Dominicans, and lay scholars alike?explore different aspects of the complex yet illuminating relationship between Ignatius and Thomas. The themes range from the general relationship between the early Jesuits and scholastic theology to the attempts by Francisco de Toledo, the first Jesuit cardinal, to apply Thomistic reasoning to the religious and legal status of Jewish converts to Christianity. Other contributions compare Ignatius and Thomas on topics of significant interest for dogmatic, sacramental, and spiritual theology: spiritual experience, the ordering of the passions, the use of the imagination, prudence and discernment of spirits, frequent communion, Mariology, the hierarchical church, and the limits of obedience. Students of Ignatius of Loyola, Thomas Aquinas, second scholasticism, Christian-Jewish relations, and spiritual theology in general will find this volume an invaluable contribution.

Crosscurrents in Australian First Nations and Non-Indigenous Art Sarah Scott, Helen McDonald, Caroline Jordan, 2023-08-11 This edited collection examines art resulting from cross-cultural interactions between Australian First Nations and non-Indigenous people, from the British invasion to today. Focusing on themes of collaboration and dialogue, the book includes two conversations between First Nations and non-Indigenous authors and an historian's self-reflexive account of mediating between traditional owners and an international art auction house to repatriate art. There are studies of 'reverse appropriation' by early nineteenth-century Aboriginal carvers of tourist artefacts and the production of enigmatic toa. Cross-cultural dialogue is traced from the post-war period to 'Aboriginalism' in design and the First Nations fashion industry of today. Transculturation, conceptualism, and collaboration are contextualised in the 1980s, a pivotal decade for the growth of collaborative First Nations exhibitions. Within the current circumstances of political protest in photographic portraiture and against the mining of sacred Aboriginal land, *Crosscurrents in Australian First Nations and Non-Indigenous Art* testifies to the need for Australian institutions to collaborate with First Nations people more often and better. This book will appeal to students and scholars of art history, Indigenous anthropology, and museum and heritage studies.
