The Oxford Handbook of Food Ethics Anne Barnhill, Tyler Doggett, Mark Budolfson, 2018-01-08 Academic food ethics incorporates work from philosophy but also anthropology, economics, the environmental sciences and other natural sciences, geography, law, and sociology. Scholars from these fields have been producing work for decades on the food system, and on ethical, social, and policy issues connected to the food system. Yet in the last several years, there has been a notable increase in philosophical work on these issues-work that draws on multiple literatures within practical ethics, normative ethics and political philosophy. This handbook provides a sample of that philosophical work across multiple areas of food ethics: conventional agriculture and alternatives to it; animals; consumption; food justice; food politics; food workers; and, food and identity.

Risse als materielles Schauspiel Holger Hartung,2023-02-06 Risse schlummern oft lange unbeachtet, bis sie plötzlich in das Feld unserer Aufmerksamkeit springen. Als materielles Schauspiel bilden sie nicht nur in Kunst und Philosophie ein neues Untersuchungsfeld, sondern auch in der Theaterwissenschaft. Der Band nimmt die Verwandlungen von Rissfiguren in Texten Martin Heideggers und Jacques Derridas als Ausgangspunkt und stellt diese in den Spiegel einer Kulturgeschichte vielfältiger Rissdarstellungen. Fünf künstlerische Arbeiten unterstreichen exemplarisch die tiefgehende Affinität von Rissfiguren und theatralen Szenarien und zeigen, wie sich diese durch Themen wie kollektive Traumata, Globalität, Migration bis hin zu Ökologie immer wieder aktualisiert.
