The Foundations and Versatility of English Language Teaching (ELT) Christoph Haase, Natalia Orlova, Joel Cameron Head, 2018-12-14 While the field of ELT studies sees continued horizontal and vertical diversification, it is also time to take stock of what has made the discipline the field it presents itself as today. As horizontal diversification, we can identify trends that involve a continued inclusion of more fields of study into the family of methods and approaches of ELT. Especially in the technical sense, e-learning has matured and new forms of online learning and teaching have emerged, be it via teleconferences or short-message services for vocabulary training. However, a massive extension has occurred within the so-called social media. The vertical dimension affects a depth of analysis not seen even a decade ago, when for example small and relatively simple learner corpora were used for linguistic analysis that rarely went beyond rote frequency counts. The increasing sophistication in these two dimensions is also reflected in the research papers collected in this volume.

Grammar and Vocabulary for First and First for Schools, 2015-03-30

Compact First for Schools Student's Book with Answers with CD-ROM Barbara Thomas, Laura Matthews, 2014-09-11 The course is designed to maximise the performance of school-age learners. It features eight units

covering the core topics, vocabulary, grammar and skills needed for all four exam papers for the revised Cambridge English: First (FCE) for Schools exam from 2015. Two teen-inspired topics in each unit ensure the entire exam syllabus is covered, and can also act as a basis for CLIL-based extension activities and projects. Grammar sections and a Grammar Reference help students build up the accurate language structure necessary for the Use of English parts of the new Reading and Use of English paper, while B2-level vocabulary is targeted, drawing on insights from English Profile, and brought together in a Wordlist based on key vocabulary from the units. 'Exam tips', and grammar and vocabulary exercises teach students to avoid common mistakes identified in Cambridge's unique collection of real exam papers, the Cambridge Learner Corpus.--Publisher description.

Catholic Schools and the Common Good Anthony S. BRYK, Valerie E. Lee, Peter Blakeley. Holland, Anthony S Bryk, 2009-06-30 The authors examine a broad range of Catholic high schools to determine whether or not students are better educated in these schools than they are in public schools. They find that the Catholic schools do have an independent effect on achievement, especially in reducing disparities between disadvantaged and privileged students. The Catholic school of today, they show, is informed by a vision, similar to that of John Dewey, of the school as a community committed to democratic education and the common good of all students.

New Hope for Schools Susan Farr Gabriele, PhD, 2014-07-15 After teaching more than twenty years in Los Angeles public schools, author Dr. Susan Farr Gabriele became disheartened with the state of schools. Too many influences took her away from the actual teaching of children. Gabriele turned to graduate school to seek answers to the problems in public education. In *New Hope for Schools*, she shares the results of her studies and the creation of a system that works for education. Gabriele discusses her experiences as a teacher and teacher turned detective looking for answers in her teaching experience and postcareer graduate school. She then reveals a breakthrough theory to demystify the behavior of people in schools, gleaned out of Boulding's Typology of System Complexity. As a result, she created the RoundTable, a practice designed to be an effective new tool for schools and classrooms, as well as a seed for systemic renewal. She also provides a three-pronged solution for unshackling and revitalizing schools and workplaces. *New Hope for Schools* presents new theory, new practice, and a user-friendly solution for systemic school renewal. It offers compelling new insights and solutions for all school decision makers—from educators, to parents, students, educational scholars, researchers, and policy makers. A powerful way to learn ...the RoundTable provides a kind of learning experience that makes a real contribution to the community as a whole... -SUSAN McCORMICK, Polson School District Superintendent, Polson, Montana; School Improvement Consultant, Montana Office of Public Instruction, Helena, Montana
