

# The War Of The Flowers

## Herbert George Wells

*The War Of The Flowers* Tad Williams, 2006-09-05 An “unforgettable” urban fantasy that “turns faerie lore on its ear”—by a New York Times–bestselling author (Library Journal)! A rock musician plummets into the dangerous world of the Faeries—with a foul-mouthed sprite as his only ally—in this “masterpiece of fantasy worldbuilding” (Locus). Theo Vilmos is a 30-year-old lead singer in a not terribly successful rock band. Once, he had enormous, almost magical charisma, both onstage and off—but now, life has taken its toll on Theo. Hitting an all-time low, he seeks refuge in a isolated cabin in the woods. While there, he reads an odd memoir written by a dead relative who believed he had visited the magical world of Faerie. And before Theo can disregard the account as the writings of a madman, he, too, is drawn to a place beyond his wildest dreams . . . a place that will be, and has always been, his destiny. Returning to the fantasy genre that made him a coast-to-coast best-selling phenomenon, Tad Williams writes this stand-alone contemporary fantasy novel, set in Northern California—and also in the strange parallel world that coexists in the farthest reaches of the imagination.

**The War of the Flowers** Tad Williams, 2019-01-08 A masterpiece of fairy-tale worldbuilding, with a Faerie land that eerily mirrors the real world. The tone is often dark, but rich, building a wondrous set in a fascinating world, with a classic reluctant hero and a cause worth cheering for.--Locus.

*Plants Go to War* Judith Sumner, 2019-05-30 As the first botanical history of World War II, *Plants Go to War* examines military history from the perspective of plant science. From victory gardens to drugs, timber, rubber, and fibers, plants supplied materials with key roles in victory. Vegetables provided the wartime diet both in North America and Europe, where vitamin-rich carrots, cabbages, and potatoes nourished millions. Chicle and cacao provided the chewing gum and chocolate bars in military rations. In England and Germany, herbs replaced pharmaceutical drugs; feverbark was in demand to treat malaria, and penicillin culture used a growth medium made from corn. Rubber was needed for gas masks and barrage balloons, while cotton and hemp provided clothing, canvas, and rope. Timber was used to manufacture Mosquito bombers, and wood gasification and coal replaced petroleum in European vehicles. Lebensraum, the Nazi desire for agricultural land,

drove Germans eastward; troops weaponized conifers with shell bursts that caused splintering. Ironically, the Nazis condemned non-native plants, but adopted useful Asian soybeans and Mediterranean herbs. Jungle warfare and camouflage required botanical knowledge, and survival manuals detailed edible plants on Pacific islands. Botanical gardens relocated valuable specimens to safe areas, and while remote locations provided opportunities for field botany, Trees surviving in Hiroshima and Nagasaki live as a symbol of rebirth after vast destruction.

Shadows of the War Theodosia Bagot, 1900

**The Allure of Nezahualcoyotl** Jongsoo Lee, 2015-08 Lee offers a more realistic portrait of the legendary Aztec ruler Nezahualcoyotl, derived from examination of original Nahuatl codices and poetry, as well as Spanish chronicles.

**Psychosocial and Cultural Perspectives on the War in Ukraine** Bohdan Shumylovych, Magdalena Zolkos, 2024-04-15  
This innovative and important book explores how war imprints on culture and the psychosocial effects of war on individuals and societies, based on the first few months after the outbreak of war in Ukraine in 2022. The book approaches the conflict in Ukraine through the prism of creative and artistic material alongside scholarly analysis to highlight the multiplicity of subjective experiences. Essays are complemented by material from the 'war diaries', which comprise day diaries, dream diaries, artistic and poetic material composed by students and academics in February and March 2022. With chapters focusing on fear, ruptures and resistance, the book examines different aspects of subjective, cultural and embodied experiences of war. It examines elements that dominant perspectives of war often overlook; the quotidian, personal and emotive ways that war is registered individually and collectively in societies and cultures. Highlighting different narratives that illuminate the complex effects of war, this book is highly relevant for postgraduate students, researchers and advanced undergraduate students in the fields of cultural psychology, psychosocial studies, peace and conflict studies and cultural history. Chapter 4, Chapter 5, Chapter 7 and Chapter 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.
