**Arthur M. Nezu, Christine M. Nezu, Pamela A. Geller**

**Cancer as a Social Activity** Michael D. Williams, 2004-12-31 The much-awaited first official collection of writings and artwork by notorious performer/songwriter Michael D. Williams. The lyricist for New Orleans metal/punk legends Eyehategod (whose prolific output has gained a mighty cult following since its inception in 1988), Mr. Williams has long been cited as a decadent pioneer, a hardcore-blues prophet and one true mouth of the disenfranchised by members of the underground press. His fragmentary, hallucinogenic outlook is the ultimate illegitimate coupling of the downtrodden gutter-life beauty of Bukowski fused with Burroughsian cutup cerebral style. Early chapbooks by Mr. Williams are much sought after by collectors of strange and powerful literature and musical ephemera.

**Eureka! I have found it...the "YOU" in Your Cancer** George Norrie, 2018-05-16 The trouble is as George Norrie points out, that we tell ourselves "I really should look into this. I really should try" but we don't believe, and so we fail, and the 'business of cancer' goes on raising funds and buying the search for the cure that is forever just around the corner, and the hospitals are still full. Think of the savings! This book instills the notion that, Yes we can! We can beat cancer, if we change our outlook on life and stop trying to find health, where it is not.

**Minding the Body** Ellyn Kaschak, 2014-01-27 Support and empower women who are coping with the pain, fear, and stigma of serious disease Being diagnosed with cancer, chronic fatigue syndrome, or fibromyalgia is a traumatic event that takes place at a time when the patient is already feeling physically (and often emotionally) drained. Minding the Body combines feminist and social constructionist approaches to offer an intimate look into the ways a therapist can help clients cope with the pain, fear, and stigma of serious disease. Minding the Body offers an alternative to the reductive view of the mind-body connection and also examines the potential for growth that such experiences often allow. The essays gathered here show how an effective therapist can help the client deal with the painful and difficult emotions that exacerbate illness, while learning the emotional and spiritual lessons illness can teach. Minding the Body presents both theoretical views and personal accounts of illness, including: scholarly discussions of the issues involved in autoimmune disorders a therapist's personal experience of chronic fatigue syndrome a personal and professional exposition of a woman's struggles with injury, illness, and managed care, co-written by client and therapist suggestions for understanding the social construction of illness and treating disease from a social-constructivist point of view narratives reflecting on the change and growth of therapists

diagnosed with cancer and other serious illnesses By looking at illness in the context of mind, body, society, and medical establishment, *Minding the Body* will help therapists, doctors, nurses, counselors, and clients deal with the grief, disappointment, and frustration of chronic and life-threatening illness.

**Anticancer Living** Lorenzo Cohen PhD, Alison Jefferies, MEd, 2019-05-07 “The health-care revolution continues . . . an accessible, science-based approach to wellness.” —Andrew Weil, MD What if we could make basic, sustainable lifestyle changes that could prevent us from getting cancer? What if those with cancer could improve their chances of living long, vibrant lives? The evidence is now clear: at least 50 percent of cancer deaths can be prevented by making healthy lifestyle changes. But many—patients and doctors included—still don't realize the simple changes we can make to increase chances of survival, or aid in the healing process for those with a diagnosis. Introducing the concept of the Mix of Six, Lorenzo Cohen and Alison Jefferies make an informed case that by focusing on six key areas of health and wellness, you can support

treatment or reduce your risk for developing cancer altogether. An accessible, prescriptive guide to wellness based on the latest scientific findings, Anticancer Living outlines a path to radically transform health, delay or prevent many cancers, support conventional treatments, and significantly improve quality of life. "Anticancer Living will empower millions of people with information they can use to reduce their risk of getting cancer and improve their chances of surviving a cancer diagnosis. Highly recommended!" —Dean Ornish, MD, author of *The Spectrum*

**Redistributing Health** Thomas Allan McIntosh, Bonnie Jeffery, Nazeem Muhajarine, 2010 What too few people realize is that, as Andre Picard writes in his Foreword to *Redistributing Health*, social justice--or lack thereof has a greater impact on

the health of the population than the human genome, lifestyle choice, and medical treatment. The truth is that things like poverty, social exclusion, lack of meaningful employment, and lack of access to education or good housing contribute significantly to ill health in Canada--and none of these will be remedied by doctors or hospitals or pill bottles.
