Key Constellations Táhirih Motazedian,2023-10-17 Key is one of the simplest building blocks of music and is among the foundational properties of a work's musical identity—so why isn't it a standard parameter in discussing film music? Key Constellations: Interpreting Tonality in Film is the first book to investigate film soundtracks—including original scoring, preexisting music, and sound effects—through the lens of large-scale tonality. Exploring compelling analytical examples from numerous popular films, Táhirih Motazedian shows how key and pitch analysis of film music can reveal hidden layers of narrative meaning, giving readers exciting new ways to engage with their favorite films and soundtracks.

**Fighter Healer Shaman** Dr. Darren R.J. LaLonde D.C.,2023-01-08 Struck by Lightning while playing alone in the backyard standing on the picnic table with his wooden sword in a rainstorm, a small boy everyone called Peanuts: he was so little lying in the mud looking up at the sky. While feeling an incredible connection with the universe yet not sure he was alive or dead? Abandoned by his parents and placed into foster care. Dylan learns to play football and fight to survive his childhood. Turns out he may have what it takes to become one of the best fighters in the world. Tempted by sex, drugs and music through death and tragedy, Dylan fights for his life to stay on the love word path. Fighting in his daily life and in sports, Dylan was also discovering how to heal himself so he could become instrumental in healing others. He was learning that true Holistic Health meant finding the balance between his mind, body, and spirit, while dealing with the extreme behaviors and events in his life that challenge the universal laws affecting the pillars and balance of his health. Dylan was awakening to the realization that the transformation he was experiencing in his life was like that of caterpillar becoming a butterfly. And that, ultimately, he was put on earth as a fighter and a healer on an incredible journey to become a Shaman!

**When Colleges Sang** J. Lloyd Winstead,2013-06-30 When Colleges Sang is an illustrated history of the rich culture of college singing from the earliest days of the American republic to the present. Before fraternity songs, alma maters, and the raahs of college fight songs became commonplace, students sang. Students in the earliest American colleges created their own literary melodies that they shared with their classmates. As J. Lloyd Winstead documents in When Colleges Sang, college singing expanded in conjunction with the growth of the nation and the American higher education system. While it was often simply an entertaining pastime, singing had other subtle and not-so-subtle effects. Singing indoctrinated students into the life of formal and informal student organizations as well as encouraged them to conform to college rituals and celebrations. University faculty used songs to reinforce the religious practices and ceremonial observances that their universities supported. Students used singing for more social purposes: students sang to praise their peer's achievements (and underachievements), mock the faculty, and provide humor. In extreme circumstances, they sang to intimidate classmates and faculty, and to defy college authorities. Singing was, and is, an intrinsic part of campus culture. When Colleges Sang explores the dynamics that inspired collegiate singing and the development of singing traditions from the earliest days of the American college. Winstead explores this tradition's tenuous beginnings in the Puritan era and follows its progress into the present. Using historical documents provided by various universities, When Colleges Sang follows the unique applications and influences of song that persisted in various forms. This original and significant contribution to the literature of higher education sheds light on how college singing traditions have evolved through the generations and have continued to remain culturally relevant even today.

**Kim Il-song's North Korea** Helen-Louise Hunter,1999-04-30 Hunter provides a glimpse inside North Korean society, detailing the everyday life of people living in perhaps the most isolated, secretive society of the 20th century. In this declassified CIA study, she describes the world's most extreme cult society under the charismatic totalitarian leader, Kim Il-song, who ruled his people for 45 years—longer than any other leader of the 20th century. Kim Il-song's totalitarian cult society comes closest to George Orwell's 1984 than any society yet contrived. Hunter brings to life what it is like to live in a thoroughly thought-controlled society—which also is the world's most class-conscious society. Based on all the sources available to the CIA at the time, this book is the most comprehensive look at North Korean life ever published. It is essential reading for foreign policy officials, Asian Studies scholars, and the general public interested in world affairs.

*New Directions in Theorizing Qualitative Research* Norman K. Denzin,James Salvo,2020-03-23 This volume on arts-based research explores the transformative power of arts for qualitative inquiry and beyond. The chapters address multiple approaches from within arts-based research and suggest that art can be mobilized to reorient the political, especially when we find the political aim straying from its proper target of truth and justice. Artistic representation is never an end in itself, for the goal is to change the way we think about people and their lives. Arts-based research makes the world visible in new and different ways, in ways ordinary scholarly writing does not allow. The Arts develops a utopian idea of belonging, illustrating how moments of history, biography, culture, politics and lived experience come together in the aesthetic. Ultimately, the content of the book examines how artistic insights resonate in arts-based research, something that not only gives us criteria for assessing the quality of ethical engagement in arts-based research practice, but also provides a conceptual framework for living more just lives through art.
