Routledge Handbook of Public Diplomacy Nancy Snow, Nicholas J. Cull, 2020-01-20 The second edition of the *Routledge Handbook of Public Diplomacy*, co-edited by two leading scholars in the international relations subfield of public diplomacy, includes 16 more chapters from the first. Ten years later, a new global landscape of public diplomacy has taken shape, with major programs in graduate-level public diplomacy studies worldwide. What separates this handbook from others is its legacy and continuity from the first edition. This first edition line-up was more military-focused than this edition, a nod to the work of Philip M. Taylor, to whom this updated edition is dedicated. This edition includes US content, but all case studies are outside the United States, not only to appeal to a global audience of scholars and practitioners, but also as a way of offering something fresher than the US/UK-centric competition. In Parts 1-4, original contributors are retained, many with revised editions, but new faces emerge. Parts 5 and 6 include 16 global case studies in public diplomacy, expanding the number of contributors by ten. The concluding part of the book includes chapters on digital and corporate public diplomacy, and a signature final chapter on the noosphere and noopolitik as they relate to public diplomacy. Designed for a broad audience, the *Routledge Handbook of Public Diplomacy* is encyclopedic in its range and depth of content, yet is written in an accessible style that will appeal to both undergraduate and postgraduate students.

Leadership Communication as Citizenship John O. Burtis, Paul D. Turman, 2010 Leadership Communication articulates the important roles communication plays in helping to co-construct group, organizational, or community direction. Leadership Communication focuses on the communication skills necessary to help co-construct an effective direction in one's systems while playing the varied roles of doer, follower, guide, manager, and/or leader. Leadership Communication is organized around three major units: 1) the integrally linked role played by communication and direction-givers in constructing our past, current, and future experiences; 2) the communication skills required for different types of direction-givers, and 3) the nature of dramatic action, which represents human engagement in systems, that may manifest as ethical action and future experiences. This book has a number of unique features including: a coherent and unified set of frameworks with which to synthesize and employ a wide range of leadership research results and theory as well as other practical materials from contemporary leadership studies; a focus on explaining the common communicative elements and skills (e.g., soliciting and saving narratives for use as teaching tales, strategic stories, and memorable messages; framing and critical incidents; dialog, discussion, and debate) involved across seemingly quite different leadership contexts (e.g., working in groups, in small organizations, in large and complex organizations, in social movements, in communities, and in the broad cultural sweep of civic life); a discussion of the different processes for attaining a direction-giving role or position given the different needs faced by the system; an explanation of the art of following, doing, and guiding well: the small leadership so often overlooked or undervalued in leader-centric explanations for effective systems; an explanation of three different orientations for communicating the vision: selling a vision; working with those who are seeking a vision; and acting with those for whom a vision is an evoked co-construction; and a discussion of how crisis (as a point of decision or of opportunity) can be useful as a source of the energy and rhetorical resources necessary for rare and difficult forms of dramatic action (leadership).
