Adolescents on Music Elizabeth Cassidy Parker,2020 Many can attest to the importance of the self-growth that occurs for young people through the arts and their accompanying communities of support, understanding, and caring. Yet even professionals who work daily with adolescents, and parents or guardians who raise adolescents, sometimes have difficulty collectively articulating why musicking experiences are important for young people. In *Adolescents on Music*, author Elizabeth Cassidy Parker proves that this challenge stems from failing to ask adolescents to share their ideas richly and fully. Accordingly, Parker argues for deeper efforts to connect adolescent perspectives with established theories and philosophies in the social sciences and humanities. Organized into three sections--Who I Am; My Social Self; and Toward a Future Vision--Parker seeks new and diverse perspectives from the young people sharing their voices and experiences in each chapter. Chapters begin with a description from adolescents, in their own words, of the music they make, the meanings they ascribe

to their music-making, and contributions to their development. The voices highlighted in these chapters come from adolescent solo musicians, autonomous and vernacular players, composers, school and community music-makers, and listeners between the ages of 12-20. By familiarizing readers with the multiplicity of adolescent music-making experiences and perspectives; discussing relevant theories within and outside of music and music education that support adolescent musical and personal growth; promoting adolescent health and well-being and greater understanding of young people; and providing a common language toward advocacy for adolescent music-making, *Adolescents on Music* serves as an invaluable resource for individual and group music teachers and practitioners, parents of adolescents, music mentors, and music education students.

Quiet! Andrea Lisa Brown,2012-10-26 "Mum is certainly the word... But only after you've had your say!" The melodic voices of many rings with the sounding of the vivid accounts of life experience and delightful assumptions that are beautifully illustrated here. These insightful words and artful drawings are what life connections are truly about. Each one beautifully depicts personal experience through, inspirational vignettes, quotes, interviews, poems, and illustrations. All in which has been brilliantly arranged. You will be amazed by how effortlessly each foster self discovery. "Quiet" is filled with stories of hope, pain, courage, struggle, love and laughter. It is both delightful and challenging. So go ahead, shout at these pages as often as you like. Because "hush yo' mouth," "silence," or plain ol "'Shut Up!" ain't welcome here. "Mum" is certainly the word. London Symphonies Nos. 99-104 in Full Score Joseph Haydn,1999-01-01 It was in his monumental 12 London symphonies, composed between 1791 and 1795, that Haydn shaped the early form of the symphony and set the standard for later composers. According to the New Grove's Dictionary of Music and Musicians, the appeal of these works stems from their stature as grand symphonies, embodying a broader presentation of musical ideas and themes and motifs of a basic simplicity and immediate appeal. The present volume contains the last six symphonies in the series, including the lively Military Symphony (No. 100), the delightful Clock Symphony (No. 101), and the world-famous London Symphony (No. 104). Scores included in this volume are Symphony No. 99 in E-flat Major; Symphony No. 100 in G Major (Military); Symphony No. 101 in D Major (The Clock); Symphony No. 102 in B-flat Major; Symphony No. 103 in E-flat Major (Dumroll); and Symphony No. 104 in D Major (London). The attractive qualities of these works have made them perennial favorites with musicians and concertgoers for over two hundred years. Now music lovers can study and enjoy the elegant structure and polished orchestration of these enduring masterpieces in this authoritative full-score edition.

Music's Immanent Future Sally Macarthur,Judy Lochhead,Jennifer Shaw,2016-05-12 The conversations generated by the chapters in Music's Immanent Future grapple with some of music's paradoxes: that music of the Western art canon is viewed as timeless and universal while other kinds of music are seen as transitory and ephemeral; that in order to make sense of music we need descriptive language; that to open up the new in music we need to revisit the old; that to arrive at a figuration of music itself we need to posit its starting point in noise; that in order to justify our creative compositional works as research, we need to find critical languages and theoretical frameworks with which to discuss them; or that despite being an auditory system, we are compelled to resort to the visual metaphor as a way of thinking about musical sounds. Drawn to musical sound as a powerful form of non-verbal communication, the authors include musicologists, philosophers, music theorists, ethnomusicologists and composers. The chapters in this volume investigate and ask fundamental questions about how we think, converse, write about, compose, listen to and analyse music. The work is informed by the philosophy primarily of Gilles Deleuze and Felix Guattari, and secondarily of Michel Foucault, Julia Kristeva and Jean-Luc Nancy. The chapters cover a wide range of topics focused on twentieth and twenty-first century musics, covering popular musics, art music, acousmatic music and electro-acoustic musics, and including music analysis, music's ontology, the noise/music dichotomy, intertextuality and music, listening, ethnography and the current state of music studies. The authors discuss their philosophical perspectives and methodologies of practice-led research, including their own creative work as a form of

research. Music's Immanent Future brings together empirical, cultural, philosophical and creative approaches that will be of interest to musicologists, composers, music analysts and music philosophers.
