

Lezioni Americane Di Italo Calvino

Gabriele Lolli

Lezioni americane Italo Calvino, 2012-07-17 La Leggerezza, la Rapidità, l'Esattezza, la Visibilità, la Molteplicità dovrebbero in realtà informare non soltanto l'attività degli scrittori ma ogni gesto della nostra troppo sciatta, svagata esistenza. (Dalla quarta di copertina di Gian Carlo Roscioni alla prima edizione)

Lezioni americane di Italo Calvino Alberto Asor Rosa, 1996

Tra il cristallo e la fiamma Adriano Piacentini, 2002

Italian Literature in the Nuclear Age Maria Anna Mariani, 2022-09-29 Italian Literature in the Nuclear Age: A Poetics of the Bystander explores the overlooked position of the bystander in the Nuclear Age by focusing on the Italian situation as a paradigmatic case. Host to hundreds of American atomic weapons while lacking a nuclear arsenal of its own, Italy's status was an ambiguous one: that of an unwilling--and in many ways passive--accomplice. Inspired by Seamus Heaney's dictum that there is no such thing as innocent by-standing, the book frames Italy's fraught mix of implication and powerlessness not only as a geopolitical question, but as a way to rethink the role of the sidelined intellectual in the face of mass extinction. Italian Literature in the Nuclear Age includes discrete chapters on the major Italian intellectuals of the time: Italo Calvino, Alberto Moravia, Elsa Morante, Pier Paolo Pasolini, and Leonardo Sciascia. Conscious of their own political marginalization, these authors address the atomic question through a wide range of experimental forms, approaching the nearly unthinkable theme in allusive and oblique ways. Often dismissed as disengaged, inconsistent, or merely playful, these works demand instead a political reading capable of recognizing their confrontation with the paradoxes of the nuclear age.

The Author in Criticism Elio Attilio Baldi, 2020-03-11 The Author in Criticism: Italo Calvino's Authorial Image in Italy, the United States, and the United Kingdom explores the cultural and historic patterns and differences in the critical readings of Italian author Italo Calvino's works in the United States of America, the United Kingdom, and Italy. It considers the external factors that contribute to create recognizable patterns in the readings of Calvino's texts in different contexts. This volume therefore covers, most notably, matters of genre (science fiction, postmodernism), cultural perceptions and conventions, the (re)current image of the author in different media, academic schools, -curricula and -canons, biographical information (such as gender and background), and translation and the language in which the author speaks (or fails to speak) to us. It traces the influence of these aspects in the academic discourse on Calvino. The Author in Criticism also analyzes

Calvino's various professional roles as writer, editor, essayist, journalist, private correspondent, and public, cosmopolitan intellectual, reappraising their often little acknowledged importance for academic criticism. An important underlying idea is that the preconceived image that every critic has of Calvino before even opening one of his books is often solidified and repeated even in the most refined and complex critical analyses. This volume purposefully foregrounds the textual and non-textual parts that are usually considered peripheral to the works of an author, such as book covers, blurbs, reviews, talks, interviews, etc. In this way, this book provides insight into the reception of Calvino's works in different countries. Moreover, it forms a broader reflection of and on important constants in the workings of literary criticism, and on the way academic discourses have developed in various cultural contexts over the last decades.

Encyclopedia of the Essay Tracy Chevalier, 2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic (such as sermons, aphorisms), individual major works, notable writers, and periodicals that created a market for essays, and particularly famous or significant essays. The preface details the historical development of the essay, and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings list, additional readings, and anthologies

Italo Calvino's Architecture of Lightness Letizia Modena, 2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought, politics, and literary philosophy in the 1960s. Drawing on his letters, essays, critical reviews, and fiction, as well as a wide range of works--primarily urban planning and design theory and history--circulating among his primary interlocutors, this book takes as its point of departure a sweeping reinterpretation of *Invisible Cities*. Passages from Calvino's most famous novel routinely appear as aphorisms in calendars, posters, and the popular literature of inspiration and self-help, reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box. The shadow of postmodern studies has had a similarly diminishing effect on this text, rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals, the shiny surfaces of play, and the ultimately rigged game of self-referentiality. In contrast, this study draws on an archive of untranslated Italian- and French-language materials on urban planning, architecture, and utopian architecture to argue that Calvino's novel in fact introduces readers to the material history of urban renewal in Italy, France, and the U.S. in the 1960s, as well as the multidisciplinary core of cultural life in that decade: the complex and continuous interplay among novelists and architects, scientists and artists, literary historians and visual studies scholars. His last love poem for the dying city was in fact profoundly engaged, deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired.

Fondamenti di comunicazione tecnico-scientifica Emilio Matricciani, 2003

Tra il cristallo e la fiamma ADRIANO PIACENTINI, 2014-07-26 Un testo fondamentale per comprendere il pensiero e lo stile di Italo Calvino. Le Lezioni Americane raccolgono le conferenze che Italo Calvino aveva preparato per le Charles Eliot Norton Poetry Lectures e che la prematura scomparsa gli impedì di leggere. Ma le Lezioni sono molto di più di un ciclo di conferenze: sono racconti, sono storia di letteratura, scienza e filosofia, sono autobiografia, sono un intreccio infinito di relazioni tra cose, idee e fatti della vita. Come ebbe a dire Maria Corti, che cura una bellissima prefazione al volume, mai Italo Calvino si sarebbe immaginato che dalle sue Lezioni Americane sarebbero nate tante suggestioni e addirittura un vastissimo discorso teorico-critico definibile in termini medievali una summa ... con la ricerca di Adriano Piacentini la realtà è un'altra: il menage à trois di letteratura, filosofia e scienza, passa qui al vaglio dell'io di uno studioso che ha rivissuto la vicenda calviniana, misurandosi con il fascino di una summa letteraria occidentale con tutte le sue tensioni cognitive. Cristallo e fiamma, due forme di bellezza perfetta da cui lo sguardo non sa staccarsi, due modi di crescita nel tempo, di spesa della materia circostante, due simboli morali, due assoluti, due categorie per classificare fatti e idee e stili e sentimenti. Cristallo e fiamma interpretano le due diverse pulsioni conoscitive di Calvino ed assieme compongono l'emblema che le riassume. Ancora Maria Corti: A Calvino piacerebbe questa summa, che ha reso il proprio messaggio un prezioso patrimonio personale e collettivo, sempre più vicino a quello che lo scrittore ha voluto dire.

Di alcune specificità della letteratura Federica Antonini, 2009

Un millenarismo improbabile Ruggero Puletti, 1991

Transmissions of Memory Patrizia Sambuco, 2018-03-19 Transmissions of Memory: Echoes, Traumas and Nostalgia in Post-World War II Italian Culture discusses cultural products—films, poetry, fiction, architectural buildings, autobiographical writing, and social media—to individuate through them the dynamics of memory. The field of analysis is Italian culture from World War II to the contemporary times, and the volume has in a gendered approach one of its focuses, offering an encompassing view on cultural memory and highlighting the similarities between gendered revisitation and revisitation of the past. The volume is divided into three sections: cultural transmissions, fractured memories, and nostalgia. In the chapters herewith the study of memory through these forms hints at a sense of transformation and often enrichment or resilience, individual or collective, that values more the present and the future rather than the past.

The Literary and Cultural Reception of Charles Darwin in Europe Thomas F. Glick, Elinor Shaffer, 2014-05-22 Beyond his pivotal place in the history of scientific thought, Charles Darwin's writings and his theory of evolution by natural selection have also had a profound impact on art and culture and continue to do so to this day. The Literary and Cultural Reception of Charles Darwin in Europe is a comprehensive survey of this enduring cultural impact throughout the continent. With chapters written by leading international scholars that explore how literary writers and popular culture responded to Darwin's thought, the book also includes an extensive timeline of his cultural reception in Europe and bibliographies of major

translations in each country.

Storytelling in Contemporary Societies Lutz Röhrich, Sabine Wienker-Piepho, International Society for Folk Narrative Research. Congress, 1990

L'esperienza estetica. Fondamenti psicofisiologici per un'educazione estetica Vezio Ruggieri, 1997

Con gli occhi della mente Mimma Bresciani Califano, Se il pensiero scientifico è in grado di rappresentare in modo sufficientemente compiuto il mondo che ci circonda, anche la letteratura può essere mossa dallo stesso interesse. Le teorie scientifiche e filosofiche si presentano come strumenti di nuova interpretazione del mondo tutte le volte che la letteratura è vissuta come mezzo per contribuire al progresso della conoscenza. In questo volume sono presi in esame i problemi che all'inizio del Novecento vengono sollevati dalla seconda rivoluzione scientifica e insieme la svolta che si manifesta nell'innovazione linguistica di una letteratura che racconta l'uomo in profondità, nella sua complessità, nelle sue contraddizioni. Sono inoltre raccolti saggi su due scrittori particolarmente significativi, Italo Calvino e Primo Levi, che hanno sondato in maniera rilevante i campi della scienza e hanno contribuito ad accrescere la nostra conoscenza.

Blog Marketing per il Self-Publishing - Come creare e gestire un blog di successo come scrittore Staff

Youcanprint, 2015-01-01 Secondo uno studio svolto da Codex nel 2012, risulta che circa il 7,5% dei lettori, prima di comprare un libro, visita il sito web o il blog dell'autore, per conoscere più da vicino la sua attività. Perché uno scrittore che si autopubblica dovrebbe creare un blog? E' presto detto: i contenuti che creerai nel tempo resteranno sempre e comunque i tuoi, senza essere soggetti ai cambiamenti che, invece, puntualmente si registrano sui social network. Con il blog puoi avere un rapporto diretto ed esclusivo con i lettori che decideranno di seguirti e potrai promuovere iniziative e nuovi libri. Il blog, insomma, è il luogo dove puoi costruire la tua personalità di scrittore e dove i lettori potranno sempre rintracciarti. In questo ebook, ideato dal team della piattaforma di self-publishing Youcanprint, troverai pratici suggerimenti su come creare un blog e su come scrivere i contenuti da pubblicare al suo interno.

Encyclopedia of Italian Literary Studies: A-J Gaetana Marrone, 2007 Publisher description

Discorso sulla matematica Gabriele Lolli, 2011-02-24 T00:00:00+01:00 Muovendo dalla dichiarazione di Calvino secondo

la quale «l’atteggiamento scientifico e quello poetico coincidono: entrambi sono atteggiamenti insieme di ricerca e di progettazione, di scoperta e di invenzione», Gabriele Lolli scopre che le Lezioni americane possono essere lette come una parabola della matematica e che gli argomenti in esse trattati (Leggerezza, Rapidità, Esattezza, Visibilità, Molteplicità) sono proprietà essenziali del pensiero matematico creativo. Se si lascia via libera alle associazioni e suggestioni evocate dal testo, è possibile descrivere i problemi e le caratteristiche della costruzione e del risultato di un’opera matematica. Di qui ha origine questo libro di irrepressibile chiarezza e grande fascino, nel quale, seguendo l’esposizione di Calvino, Gabriele Lolli sostituisce le opere letterarie e le citazioni con semplici esempi di argomenti di matematica elementare per adattare i giudizi calviniani al nuovo campo. Il ragionamento matematico si rivela così per quello che è: molteplice, paradossale, capace non solo di spiegare perché certi insetti camminano sull’acqua e di produrre i frattali da una formula con quattro simboli, ma anche di mostrare insospettite analogie con la creazione letteraria.

Reviewing **Lezioni Americane Di Italo Calvino** : Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing. Within the pages of "**Lezioni Americane Di Italo Calvino** ," an enthralling opus penned by a very acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
