La gestión de incidentes críticos en la Universidad Carles Monereo Font,Manuel Monte Aneas,Paola Andreucci Annunziata,2015-11-05 Quince relatos de académicos universitarios que tratan de retratar distintas formas de ser profesor universitario. Quince historias extraídas de la vida misma en las que se produce un incidente crítico, un conflicto que marcará un antes y un después en la identidad profesional de esos docentes. El libro está escrito por profesores experimentados que analizan esas historias desde tres miradas distintas y complementarias: desde la investigación sobre la docencia universitaria (C.Monereo), desde la literatura y el arte en educación (M.Monte), y desde la psicología y la psicoterapia (P.Andreucci). Tres miradas que diseccionan la complejidad de una profesión en crisis y que aportan un modelo de análisis, una pauta para analizar incidentes críticos (PANIC), útil para repensar la propia identidad profesional. Una obra recomendada para profesores que empiezan, para académicos veteranos que aún piensan en mejorar, y para aquellos profesionales interesados en la formación, orientación y asesoramiento del profesorado universitario.

Con el cariño y agradecimiento que implica todo homenaje al maestro, este libro salda una deuda pendiente con la memoria de este científico y escritor de talla internacional.

Relatos del corazón Nanci Piñeiro,2022-12-30 Este libro es un delicado ejercicio de la memoria en forma de poesías y de relatos. Con sentida nostalgia, la autora evoca en sus versos los lugares, las personas y las historias que han marcado su vida. Sin embargo, también es la obra de un espíritu que resiste los obstáculos del presente y que mira hacia el futuro con ansias de vida. En una época en la que corremos el riesgo de perder el vínculo con el pasado, con quienes vivieron y lucharon antes que nosotros, este libro nos recuerda que debajo del presente hay profundas raíces que deben ser conocidas y valoradas. En sus páginas late la ternura y el vigor de un alma que ríe y llora, que baila, que desea, que se niega al olvido.

Una tarde de cielos sonrosados Julia García Pineda,2021-11-29 Una tarde a finales de la primavera de 1978, el camino de Luz, hija de madre soltera con una precaria economía familiar, nacida y criada en un pueblo de la España profunda a finales de los años 50 y estudiante universitaria de Filología hispánica, que compagina sus estudios con una jornada de trabajo a tiempo completo en Madrid, sufre un cambio importante al aceptar una propuesta laboral lejos de su entorno social y familiar, que rompe con lo que había proyectado e ideado junto a su madre. Su espíritu idealista desea desplegar sus alas y acometer otros vuelos, ampliar horizontes y alcanzar otras vidas. Conocer y explorar un mundo nuevo, y elegir, a pesar de sus dudas e incertidumbre, su futuro en libertad. Superación, intriga, sueños, secretos, amores, desengaños, tragedia... Pero también vive el AMOR con mayúsculas, la auténtica AMISTAD, el respeto a la diversidad, así como su desaprobación y el esfuerzo por conseguirlo, y momentos de emoción que te colman el alma, recorren la vida de esta gran MUJER y los personajes que forman parte de su camino. ¿Logrará conseguir la vida que soñó en su juventud? «Una novela de aventura vital y comprometida con la sociedad, en la que los valores son el eje de la misma. Inspirada en hechos reales, que atraerán el interés del lector y le harán reflexionar a lo largo de todo el relato. El futuro no está escrito. No dejemos que nadie lo

escriba por nosotros».

El futuro del Derecho y Economía Guido Calabresi,2023-06-29 La presente obra explora la intersección entre el derecho y la economía, y ofrece una visión de uno de los fundadores y más importantes exponentes del movimiento Law & Economics. El autor destaca la importancia de integrar de manera efectiva ambas disciplinas en base a considerar tanto su eficiencia económica como la equidad y la justicia. También enfatiza la necesidad de colaboración entre juristas y economistas, así como la incorporación de métodos empíricos y análisis cuantitativos en el estudio del derecho. Se examina cómo la ley y la economía pueden abordar problemas globales. Asimismo, resalta la importancia de la justicia distributiva y las implicaciones éticas de la aplicación de la teoría económica al derecho. A su vez, propone una educación interdisciplinaria en derecho y economía, pues se busca un equilibrio entre la eficiencia económica, la justicia y otros valores fundamentales para lograr un sistema legal más equitativo y eficaz.
