The First Viral Images Stephanie Porras,2022-10-25 As a social phenomenon and a commonplace of internet culture, virality provides a critical vocabulary for addressing questions raised by the global mobility and reproduction of early modern artworks. This book uses the concept of virality to study artworks' role in the uneven processes of early modern globalization. Drawing from archival research in Asia, Europe, and the Americas, Stephanie Porras traces the trajectories of two interrelated objects made in Antwerp in the late sixteenth century: Gerónimo Nadal's *Evangelicae historiae imagines*, an illustrated devotional text published and promoted by the Society of Jesus, and a singular composition by Maerten de Vos, St. Michael the Archangel. Both were reproduced and adapted across the early modern world in the seventeenth century. Porras examines how and why these objects traveled and were adopted as models by Spanish and Latin American painters, Chinese printmakers, Mughal miniaturists, and Filipino ivory carvers. Reassessing the creative labor underpinning the production of a diverse array of copies, citations, and reproductions, Porras uses virality to elucidate the interstices of the agency of individual artists or patrons, powerful gatekeepers and social networks, and economic, political, and religious infrastructures. In doing so, she tests and contests several analytical models that have dominated art-historical scholarship of the global early modern period, putting pressure on notions of copying, agency, context, and viewership. Vital and engaging, *The First Viral Images* sheds new light on how artworks, as agents of globalization, navigated and contributed to the emerging and intertwined global infrastructures of Catholicism, commerce, and colonialism.

**Building Yanhuitlan** Alessia Frassani,2017-10-12 Through years of fieldwork in the state of Oaxaca, Mexico, art historian and archaeologist Alessia Frassani formulated a compelling question: How did Mesoamerican society maintain its distinctive cultural heritage despite colonization by the Spanish? In *Building Yanhuitlan*, she focuses on an imposing structure—a sixteenth-century Dominican monastery complex in the village of Yanhuitlan. For centuries, the buildings have served a central role in the village landscape and the lives of its people. Ostensibly, there is nothing indigenous about the

complex or the artwork inside. So how does such a place fit within the Mixteca, where Frassani acknowledges a continuity of indigenous culture in the towns, plazas, markets, churches, and rural surroundings? To understand the monastery complex—and Mesoamerican cultural heritage in the wake of conquest—Frassani calls for a shifting definition of indigenous identity, one that acknowledges the ways indigenous peoples actively took part in the development of post-conquest Mesoamerican culture. Frassani relates the history of Yanhuitlan by examining the rich store of art and architecture in the town's church and convent, bolstering her account with more than 100 color and black-and-white illustrations. She presents the first two centuries of the church complex's construction works, maintenance, and decorations as the product of cultural, political, and economic negotiation between Mixtec caciques, Spanish encomenderos, and Dominican friars. The author then ties the village's present-day religious celebrations to the colonial past, and traces the cult of specific images through these celebrations' history. Cultural artifacts, Frassani demonstrates, do not need pre-Hispanic origins to be considered genuinely Mesoamerican—the processes attached to their appropriation are more meaningful than their having any pre-Hispanic past. Based on original and unpublished documents and punctuated with stunning photography, *Building Yanhuitlan* combines archival and ethnographic work with visual analysis to make an innovative statement regarding artistic forms and to tell the story of a remarkable community.

Rubens in Repeat Aaron M. Hyman, 2021-08-03 This book examines the reception in Latin America of prints designed by the Flemish artist Peter Paul Rubens, showing how colonial artists used such designs to create all manner of artworks and, in the process, forged new frameworks for artistic creativity. Peter Paul Rubens (1577–1640) never crossed the Atlantic himself, but his impact in colonial Latin America was profound. Prints made after the Flemish artist's designs were routinely sent from Europe to the Spanish Americas, where artists used them to make all manner of objects. *Rubens in Repeat* is the first comprehensive study of this transatlantic phenomenon, despite broad recognition that it was one of the most important forces to shape the artistic landscapes of the region. Copying, particularly in colonial contexts, has traditionally held negative implications that have discouraged its serious exploration. Yet analyzing the interpretation of printed sources and recontextualizing the resulting works within period discourse and their original spaces of display allow a new critical reassessment of this broad category of art produced in colonial Latin America—art that has all too easily been dismissed as derivative and thus unworthy of sustained interest and investigation. This book takes a new approach to the paradigms of artistic authorship that emerged alongside these complex creative responses, focusing on the viceroyalties of New Spain and Peru in the seventeenth and eighteenth centuries. It argues that the use of European prints was an essential component of the very framework in which colonial artists forged ideas about what it meant to be a creator.
