Play and STEM Education in the Early Years Sue Dale Tunnicliffe, Teresa J. Kennedy, 2022-06-16 This edited book provides an overview of unstructured and structured play scenarios crucial to developing young children's awareness, interest, and ability to learn Science, Technology, Engineering and Mathematics (STEM) in informal and formal education environments. The key elements for developing future STEM capital, enabling children to use their intuitive critical thinking and problem-solving abilities, and promoting active citizenship and a scientifically literate workforce, begins in the early years as children learn through play, employing trial and error, and often investigating on their own. Forty-seven STEM experts come together from 16 countries (Argentina, Australia, Belgium, Canada, England, Finland, Germany, Israel, Jamaica, Japan, Malta, Mauritius, Mexico, Russia, Sweden, and the USA) and describe educational policies and experiences related to young learners 3-4 years of age, as well as students attending formal-nursery school, early primary school, and the early years classes post 5 years of age. The book is intended for parents seeking to provide STEM activities for their children at home and in playgroups, citizen scientists seeking guidance to provide children with quality educational activities, daycare practitioners providing educational structures for young children from birth to formal education, primary school teachers and preservice teachers seeking to teach preschool, kindergarten or children typically aged 5-8 years old in grades 1-3, as well as researchers and policy makers working in science didactics with small children.

Interculturalidad, inclusión y equidad en educación Erla Mariela Morales Morgado, 2023-01-16 Los trabajos presentados en el congreso «INCLUYE», organizado por el Grupo de Investigación Reconocido (GIR) en Multiculturalidad, Innovación y Tecnologías Aplicadas (MITA) de la Universidad de Salamanca, reúne a la comunidad investigadores para discutir y reflexionar sobre tres ejes temáticos relevantes y urgentes para nuestra educación actual, en las diversas latitudes del mundo: equidad e igualdad en educación escolar y superior; educación intercultural; métodos, metodologías y evaluación inclusivas. En el primero se presentan reflexiones y praxis educativas, que intentan alcanzar la equidad e igualdad, dejando atrás las etiquetas que lejos de unir, marcan las diferencias en el alumnado con diversidad de género y necesidades especiales. En el segundo se aborda la educación intercultural y multicultural en diversos contextos educativos en el contexto de los fenómenos migratorios que nos encontramos viviendo a nivel mundial. Tiene especial énfasis las competencias y principios pedagógicos para la acción educativa intercultural, como en las intervenciones educativas para prevenir

situaciones de conflicto. En el tercer eje se exponen trabajos que abordan la innovación educativa para la inclusión a través de metodologías activas y emergentes para que el alumnado logre el máximo nivel de desarrollo personal y la adquisición del mayor grado de conocimientos y destrezas de acuerdo con sus propias posibilidades. Este tema, está dirigido especialmente a aquellas propuestas que recojan estrategias pedagógicas que tengan como finalidad la inclusión de todo el alumnado en la comunidad educativa, especialmente de los grupos con más riesgo de exclusión.

Democratic Education as a Curricular Problem Daniel Friedrich, 2014-01-03 By repositioning democratic education not as something that can be achieved by following a certain, proven process, but as an inherently paradoxical enterprise in its dealings with the tension between schooling as the intentional production of citizens and the uncertainties of democracy, an alternative way of reading the curriculum emerges. This book aims not at arriving at the right combination of theory, policy and praxis that will provide the democratic utopia, but at historicizing the discourses that have shaped the ways in which we think and act in the field of education.

The Oxford Handbook of Assessment Policy and Practice in Music Education, Volume 1 Timothy S. Brophy, 2019-01-02 In the music classroom, instructors who hope to receive aid are required to provide data on their classroom programs. Due to the lack of reliable, valid large-scale assessments of student achievement in music, however, music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms. From Australia to Taiwan to the Netherlands, music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers. In this two-volume Handbook, contributors from across the globe come together to provide an authority on the assessment, measurement, and evaluation of student learning in music. The Handbook's first volume emphasizes international and theoretical perspectives on music education assessment in the major world regions. This volume also looks at technical aspects of measurement in music, and outlines situations where theoretical foundations can be applied to the development of tests in music. The Handbook's second volume offers a series of practical and US-focused approaches to music education assessment. Chapters address assessment in different types of US classrooms; how to assess specific skills or requirements; and how assessment can be used in tertiary and music teacher education classrooms. Together, both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field.

A Comparative Analysis of Systems of Education Law Charles J. Russo, Leijun Ma, 2024-05-08 This book focuses on enhanced educator awareness of issues involving the status of the right to education as guaranteed by various legal systems throughout the world, in light of the growing interest in comparative and international studies, including the law. Consequently, this interdisciplinary, comparative book, which includes original chapters by leading academicians with expertise in law and education, is designed to serve as a resource for researchers in education and law as well as

policymakers and students. To this end, the book provides readers with an enhanced awareness of the nature of legal systems impacting education throughout the world. Education is the driving force of the world development as well as the basic way to realize human rights and values. At the same time, law plays an important role in the protection, evaluation, guidance, and promotion in the process of the development of education. The book thus has interdisciplinary appeal. Various audiences will find this highly accessible book informative and valuable, including scholars with an interest in Education Law, university faculty and classes (whether involved in teacher preparation or educational leadership), legal practitioners, and university libraries.

Reformas educativas en un Estado federal Guillermo Ramón Ruiz, 2024-01-29 En este libro se analiza la ejecución de las reformas educativas en ocho jurisdicciones provinciales de las cinco regiones educativas que tiene la Argentina, principalmente en el plano curricular. La pregunta que guía esta indagación es: ¿qué efectivamente se ha reformado en la educación argentina en los cuarenta años de democracia? Para ello, la escala de análisis es subnacional y -con un criterio federal-; se trata de interpretar el rol del Estado federal y de las capacidades diferenciales de los Estados provinciales analizados. La cuestión de las diferencias en el Estado federal y cómo ello cercena el principio de igualdad -que está en la base del derecho a la educación- es puesta en evidencia, discutida y problematizada, aunque no necesariamente respondida. Se complementa el estudio con datos sociodemográficos. Luego de 40 años de gobiernos democráticos y una profusa labor parlamentaria en materia educativa, la desigualdad evidenciada por los indicadores de cobertura y rendimiento reflejan diferencias más profundas, sobre todo en el plano curricular. Ello afecta a las condiciones y a las estrategias de enseñanza y ciertamente impacta sobre los aprendizajes de la población escolar. Analizar esas limitaciones a partir de las políticas curriculares en el Estado federal, así como los procesos de traducción de los lineamientos federales que se evidencian en los niveles subnacionales y también algunos de los resultados en términos de desempeño constituyen los propósitos de este libro.

Una política pública educativa en la era digital Diego, Aguiar, Ana María, Capuano, Ariel Hernán, Vercelli, Mariano, Zukerfeld, María, Del Valle Nuñez, Karina Beatriz, Bianculli, Gustavo L, Seijo, Matías A Wersocky, Paloma, Fidmay, Leopoldo Ernesto, Blugerman, Marina Laura, Calamari, 2019-02-26 El Programa Conectar Igualdad (PCI) es abordado desde una diversidad de enfoques que da cuenta de la dimensión de esta política pública cuyo eje fue la inclusión digital, pero también el mejoramiento de los procesos de enseñanza y aprendizaje o la sustitución de importaciones.

Third International Handbook of Lifelong Learning Karen Evans, Wing On Lee, Jörg Markowitsch, Miriam Zukas, 2023-03-21 The Third edition of this well-received and widely used Handbook brings together an entirely new set of chapters, to reflect progress and new themes in the ten years to 2022. Building on the established structure of the first two Handbooks, the four sections focus in turn on: philosophy, history and theory development; fresh perspectives on policy and policy development; emerging programs and new approaches; and re-imagining lifelong learning for future challenges. The

Handbook stimulates readers with fresh and timely insights, while exploring anew some enduring themes. New topics and themes introduced in all sections address lifelong learning challenges associated with climate change, the digital world, the rise of populism, migration and precarious living. The Handbook features learning innovations and evolving pedagogies such as intergenerational learning, art as pedagogy to promote public-mindedness, neuroscience enhancing learning effectiveness, and lifelong learning for sustainability. Policy responses to lifelong learning for work and well-being are debated. In state of the art contributions, authors from around the globe focus readers' attention on multifaceted processes, issues and decisions that must be better understood and enacted if inclusive development and fair access to lifelong learning are to become realities for us all.

Young Children's Developing Understanding of the Biological World Peter J. Marshall, Kimberly Brenneman, 2019-07-23 This book explores current research on young children's beliefs and knowledge about the biological world - otherwise known as 'folkbiology'. Contributors discuss factors that shape the development of folkbiological knowledge, as well as possible interventions designed to counteract cognitive biases that can interfere with the development of scientifically informed reasoning about natural phenomena. Taken together, the papers provide insights into the contributions of cognitive biases to the development of biological misunderstandings and into the life experiences and contexts that can contribute to or impede accurate learning of biological concepts. As part of a wider literature, the insights provided by the authors are relevant to the design of educational experiences that will foster children's exploration and further their understanding of life science ideas. The chapters in this book were originally published as a special issue of *Early Education and Development*.

Media Education in Latin America Julio-César Mateus, Pablo Andrada, Maria Teresa Quiroz, 2019-07-22 This book offers a systematic study of media education in Latin America. As spending on technological infrastructure in the region increases exponentially for educational purposes, and with national curriculums beginning to implement media related skills, this book makes a timely contribution to new debates surrounding the significance of media literacy as a citizen's right. Taking both a topical and country-based approach, authors from across Latin America present a comprehensive perspective of the region and address issues such as the political and social contexts in which media education is based, the current state of educational policies with respect to media, organizations and experiences that promote media education.

The Oxford Handbook of Language Policy and Planning James W. Tollefson, Miguel Pérez-Milans, 2018-05-07 This Handbook provides a state-of-the-art account of research in language policy and planning (LPP). Through a critical examination of LPP, the Handbook offers new direction for a field in theoretical and methodological turmoil as a result of the socio-economic, institutional, and discursive processes of change taking place under the conditions of Late Modernity. Late Modernity refers to the widespread processes of late capitalism leading to the selective privatization of services (including education), the information revolution associated with rapidly changing statuses and functions of languages, the weakening of the institutions of nation-states (along with the strengthening of non-state actors), and the fragmentation of overlapping and competing identities associated with new complexities of language-identity relations and new forms of multilingual language use. As an academic discipline in the social sciences, LPP is fraught with tensions between these processes of change and the still-powerful ideological framework of modern nationalism. It is an exciting and energizing time for LPP research. This Handbook propels the field forward, offering a dialogue between the two major historical trends in LPP associated with the processes of Modernity and Late Modernity: the focus on continuity behind the institutional policies of the modern nation-state, and the attention to local processes of uncertainty and instability across different settings resulting from processes of change. The Handbook takes great strides toward overcoming the long-standing division between top-down and bottom-up analysis in LPP research, setting the stage for theoretical and methodological innovation. Part I defines alternative theoretical and conceptual frameworks in LPP, emphasizing developments since the ethnographic turn, including: ethnography in LPP; historical-discursive approaches; ethics, normative theorizing, and transdisciplinary methods; and the renewed focus on socio-economic class. Part II examines LPP against the background of influential ideas about language shaped by the institutions of the nation-state, with close attention to the social position of minority languages and specific communities facing profound language policy challenges. Part III investigates the turmoil and tensions that currently characterize LPP research under conditions of Late Modernity. Finally, Part IV presents an integrative summary and directions for future LPP research.

Governing Migration for Development from the Global Souths ,2022-09-12 The 14th thematic volume of International Development Policy provides perspectives through case studies from the global Souths focusing on the challenges and opportunities of governing migration on the subnational, national, regional and international levels. Bringing together some thirty authors from Africa, Latin America and Asia, the book explores existing and new policies and frameworks in terms of their successes and best practices, and looks at them through the lens of additional challenges, such

as those brought on by the COVID-19 pandemic, the rise of nationalisms and an increase in xenophobia. The chapters also take the '5 Ps' approach to sustainable development (people, planet, prosperity, peace and partnerships) and assess how migration policies serve sustainable development in a rapidly evolving context. Contributors are Yousra Abourabi, Gabriela Agosto, Belkis Aracena, Andrea Fernández Benítez, Macarena Chepo, Amanda Coffie, Jonathan Crush, María del Consuelo Dávila Pérez, Dêlidji Eric Degila, Jenny Lind Elmaco, René Leyva Flores, Luisa Feline Freier, Silvia Núñez García, Marcela Pezoa González, Binod Khadria, Ariel González Levaggi, Wei Li, Meixin Liu, Ling Ma, Ratnam Mishra, Daniel Naujoks, Claudia Padilla, Karol Rojas, Fabiana Rubinstein, Yining Tan, Narender Thakur, Gerasimos Tsourapas, Valeria Marina Valle and Jossette Iribarne Wiff.

Una acción educativa pensada. Reflexiones desde la filosofía de la educación Concepción Naval Durán, 2020-12-28 En los tiempos de la medición, la evaluación, la evidencia empírica y los indicadores objetivos, el pensamiento sobre la acción educativa desde una perspectiva filosófica, se ha convertido en un fenómeno prácticamente contra corriente. No se trata necesariamente de actuar en oposición frontal y directa ante otros paradigmas, sino más bien de llamar la atención sobre la propia naturaleza de la realidad, que es multidimensional, compleja, sistémica y muy amplia, por lo que la respuesta que demanda no puede ser única, simplista, cerrada y limitada. Al contrario, de los educadores y pedagogos se esperan actitudes creativas, críticas, abiertas, reflexivas, profundas, en ocasiones pausadas y meditadas, en cuanto que suponen una ineludible responsabilidad ante los educandos. La filosofía, y más concretamente, la filosofía de la educación, en cuanto que pensamiento aplicado, supone una oportunidad inmejorable para poner en práctica estas cualidades del ser humano, por lo que su comparecencia en el ámbito educativo no puede ignorarse, ni relegarse exclusivamente al ámbito universitario, alejado de la vida de las aulas en diferentes niveles educativos. El Ebook presente nace en el seno de estos planteamientos y reúne a un importante número de autores en torno al eje de la filosofía de la educación. En él se encuentran trabajos diversos, que incluyen ensayos, investigaciones, proyectos, estudios de caso, etc., realizados por profesores de universidad, así como por educadores que ejercen su profesión en centros educativos de distintas etapas, desde la Educación Infantil, la Educación Primaria y Secundaria, entre otras. Asimismo, su procedencia es muy variada, encontrando un buen número de autores españoles, de otros países de Europa y, de manera especial, de Latinoamérica, cuya diversidad se refleja también en los diferentes idiomas en los que se encuentran escritos los capítulos: español, inglés, portugués e italiano. Los editores confiamos que este texto resulte de interés tanto para los filósofos de la educación, como para educadores de otras áreas, de tal forma que esta disciplina contribuya a iluminar una práctica educativa más reflexiva y humanizadora.

El derecho a la educación Guillermo Ramón Ruiz, 2020-06-08 El punto de partida para los análisis que integran esta obra radica en una clara concepción de la educación como derecho. El trabajo puntualiza, en primer lugar, dos ideas en torno a lo que entendemos como educación que se asocian, por un lado, a una práctica social que permea todos los niveles de la vida

humana en todas las épocas y, por otro, a la educación formalizada en escuelas de alcance masivo que se vincula con el desarrollo de los Estados nacionales modernos. A partir de esas especificaciones, establece las finalidades básicas de la educación contemporánea: la educación entendida como cambio, que le da al sujeto la posibilidad de relacionarse con su entorno y sus semejantes, y la educación que integra a las personas en los modos de vida, valores y aspiraciones de cada comunidad. De estas dos funciones surge claramente el carácter de derecho fundamental que asiste a la educación.

¿Evasión o expulsión? María del Carmen Parrino, 2014-01-01 Este libro expone uno de los problemas más acuciantes de la universidad actual: la pérdida de sus estudiantes. La matrícula crece año a año, pero los jóvenes abandonan los cursos al poco tiempo de iniciarlos. La deserción desnuda no sólo los problemas individuales de los estudiantes para hacer frente a la carrera, sino también dificultades institucionales y sociales en relación con la permanencia. La obra propone abordar la problemática desde una perspectiva holística revisando las diferentes dimensiones involucradas a fin de descubrir las causas y los procesos intervinientes en el fenómeno. Las consecuencias son importantes para el joven y su familia, pero también representan un derroche de recursos para las instituciones y la sociedad en su conjunto. La autora profundiza la mirada abordando problemáticas relativas a la universidad y al sujeto. Los adultos, en particular, los padres y profesores, debemos cimentar la educación de las generaciones futuras. No es suficiente con promover la asistencia a la universidad, ya que ni la gratuidad ni el acceso directo aseguran la permanencia. Es necesario pensar nuevas estrategias que aporten soluciones para lograr una trayectoria educativa continua que consolide la graduación. Así, este libro propone un cambio de perspectiva con miras a un nuevo paradigma inclusivo.

De tecnologías digitales, educación formal y políticas públicas, 2015 La incorporación de tecnologías digitales a los sistemas de educación formal –en cualquiera de sus niveles– ha sido y continúa siendo un tema sumamente mencionado en los discursos de los diferentes actores sociales. Así, este libro se inscribe en un escenario de múltiples voces. De alguna manera, y dada su estructuración, pretende captar lo diverso de la diáda: tecnología digital/educación formal. Para ello, los autores y autoras que colaboran en él problematizan diversos aspectos de dicha diáda. Más aún, estas dos dimensiones son abordadas tanto de manera macro como microsocial, desde el análisis de las políticas públicas y el rol del Estado, hasta las instituciones educativas y los destinatarios directos de éstas (educadores y alumnos). Los diferentes capítulos reflexionan sobre las políticas de incorporación de tecnologías digitales en los sistemas educativos formales, consideradas teórica y analíticamente a partir de resultados de investigaciones. Esperamos que el contenido de este libro contribuya en un futuro no muy lejano a la discusión respecto del desarrollo e implementación de las tecnologías digitales en la vida educativa y las diversas repercusiones que éstas traen en la población destinataria.

English Language Teaching in South America Lía D. Kamhi-Stein, Gabriel Díaz Maggioli, Luciana C. de Oliveira, 2017-05-23 This book investigates new English language policies and initiatives which have been introduced and

implemented across Argentina, Brazil, Chile, Colombia, Ecuador, Uruguay and Venezuela. Chapters are organized around three themes. Chapters in the first section critically examine newly-implemented English language policies, as well as factors that contribute to and prevent the implementation of such policies. Chapters in the second section describe and analyze current teacher preparation and teacher development initiatives, in addition to the challenges and opportunities associated with such initiatives. Finally, the third section features school- and classroom-based research designed to investigate the status of English language teaching and the implementation of innovative programs. All authors have a first-hand understanding of the South American context and draw on references and resources which originate beyond Inner Circle countries. The book showcases examples of innovation and success in a variety of complex contexts and will serve as a starting point for researchers, as well as being of interest to students, policymakers and stakeholders. This book is open access under a CC BY NC ND licence.

Reforming Teaching and Learning, 2009-01-01 This volume addresses the larger question of the effects of (global) educational reform on teaching and learning as they relate to the context, the policies and politics where reform occurs. Maria Teresa Tatto and Monica Mincu bring together a group of leading scholars in the field representing a variety of national contexts and geographical areas. The chapters in the book raise crucial questions such as: What is the impact of globalization on local education systems and traditions? What roles do international agencies play? What is the role of the state? What is the role of policy networks? How do we understand the functions of quality assurance mechanisms, standards, competencies, and the “new” accountability? In doing so the chapters discuss the institutions and organization of education and how these shape what teachers learn and, eventually, teach to diverse populations. The book uses a number of analytical frameworks and theoretical perspectives, from critical discourse analysis, regime theory, empirical exploration of teachers’ thinking and actions within school contexts, analysis of reform diffusion and global trends. Using analysis of the literature and relevant documents, case studies and diverse forms of survey research, this work offers a glimpse of the complexities that exist in the fields of teaching and learning. This collection is also an occasion to observe the profile of knowledge production in these cultural contexts, the interplay between local and national research agendas and traveling policies around the world.
