Quotationary - The A-Z Book of Quotations Nasser Amiri,2024-06-27 Compiled over many years by Nasser Amiri, this is by far the most comprehensive collection ever compiled of carefully selected quotations from the world's great philosophers, writers, historians, musicians and thinkers. Quotationary is a source of inspiration for every writer, book-lover and thinker. It contains the thoughts of many of the finest minds since ancient man started to express his wit and wisdom in aphoristic form. It is inspirational, instructive, amusing and literary; alongside a dictionary and thesaurus it is a must-have purchase for any author, writer, journalist or anyone working with words.

A Book of Quotations, Proverbs and Household Words Sir William Gurney Benham,1907

Bentham John Rowland Dinwiddy,William L. Twining,2004 Jeremy Bentham, the founder of utilitarianism, made a powerful impact on several major areas of thought and policy: ethics, jurisprudence, political and constitutional theory, and social and administrative reform. Yet from the start his ideas have been subject to misunderstanding and caricature. John Dinwiddy's Bentham is regarded as the best introduction to this important jurist and reformer. Dinwiddy examines the

various components of Bentham's philosophy and shows how each was shaped by the radical rethinking entailed by the utilitarian approach. He also discusses interpretations of Benthamism and its contemporary significance and the controversial question of Bentham's influence on reform. Bentham is reproduced here in full together with three classic essays that deal with key issues in understanding Bentham: his conversion to political radicalism, the relations between private and public ethics, and his theory of adjudication. A new introduction and select bibliography by William Twining set the context and survey the developments in Bentham studies since the book's original publication in 1989.

The Strongest Animals in the World Are Herbivores Paul E. Widmayer, 2014-03-04 This book contains a bit of science, philosophy, nature, and beauty. It provides some concepts of life involving the source of all energy the sun and how its energy is utilized through basic chemistry to form various food sources from vegetation. From these various forms of vegetation the most abundant food source available on earth all life is able to flourish. Numerous animals including aquatics, fowl, and a wide variety of mammals are able to utilize this vegetation to sustain life, give beauty to the world, and live in harmony with nature. The book lists a number of great men who were visionaries and understood the natural laws of the universe. These visionaries of centuries past shared their ideas on vegetarianism, respect for animals, and life in general. The book alludes to an interconnectedness of life and tries to convey that our world can become a better place when there is care and concern for all creatures capable of sensation.

Jeremy Bentham's Economic Writings Werner Stark, 2014-05-12 This volume contains all the writings that are grouped around Bentham's boldest idea - the proposal of a 'circulating currency': a government sponsored currency which would be both a kind of savings certificate and a kind of paper money. The roots of this proposal are illustrated in two pamphlets from 1794-96, along with subsequent pamphlets and discussions which show Bentham's unsuccessful negotiations with the treasury on this matter.

Torture and the Ticking Bomb Bob Brecher, 2017-04-24 This timely and passionate book is the first to address itself to Harvard Law Professor Alan Dershowitz's controversial arguments for the limited use of interrogational torture and its legalisation. Argues that the respectability Dershowitz's arguments confer on the view that torture is a legitimate weapon in the war on terror needs urgently to be countered Takes on the advocates of torture on their own utilitarian grounds Timely and passionately written, in an accessible, jargon-free style Forms part of the provocative and timely Blackwell Public Philosophy series

Philosophy on Tap Matt Lawrence, 2011-03-01 When beer starts to flow, philosophical discussions naturally follow. Philosophy on Tap takes pub philosophy to the next level, pairing 48 of life's greatest philosophical questions with 48 of the world's best beers. Features a unique presentation of philosophical puzzles, paradoxes, and debates by considering 48 of life's biggest questions in the context of 48 distinctive beers from around the world Provides a highly engaging and sociable approach to the classic philosophical problems as well as a unique look at the conundrums that directly affect the beer drinker Combines a philosopher's insights with thematic humor and trivia to explore issues such as free will, God's existence, the nature of the soul, time travel, the aesthetics of taste, the role of beer in the good life, and the infamous beer goggles

paradox For beer drinkers who enjoy philosophy, philosophers who enjoy beer, and anyone who has ever pondered the meaning of life over a pint of ale

Identities, Politics, and Rights Austin Sarat, Thomas R. Kearns, 2010-05-06 The subject of rights occupies a central place in liberal political thought. This tradition posits that rights are entitlements of individuals by virtue of their personhood and that rights stand apart from politics, that rights in fact hold at bay intrusions of state policy. The essays in *Identities, Politics, and Rights* question these assumptions and examine how rights constitute us as subjects and are, at the same time, implicated in political struggles. In contrast to the liberal notion of rights' universality, these essays emphasize the context-specific nature of rights as well as their constitutive effects. Recognizing that political disputes throughout the world have increasingly been cast as arguments about rights, the essays in this volume examine the varied roles that rights play in political movements and contests. They argue that rights talk is used by many different groups primarily because of its fluidity. Certainly rights can empower individuals and protect them from their societies, but they also constrain them in other areas. Frequently, empowerment for one group means disabling rights for another group. Moreover, focusing on rights can both liberate and limit the imagination of the possible. By alerting us to this paradox of rights--empowerment and limitation--*Identities, Politics, and Rights* illuminates ongoing challenges to rights and reminds us that rights can both energize political engagement and provide a resource for defenders of the status quo. Contributors are Richard Abel, Bruce Ackerman, Wendy Brown, John Comaroff, Drucilla Cornell, Jane Gaines, Thomas R. Kearns, Elizabeth Kiss, Kirstie McClure, Sally Merry, Martha Minow, Austin Sarat, and Steven Shiffrin. Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science, Amherst College. Thomas R. Kearns is William H. Hastie Professor of Philosophy, Amherst College.

The Fall of Humankind and Social Progress Arttu Mäkipää, 2023-07-21 This book investigates the link between human capabilities and the preconditions for social progress through an engagement with the theological anthropology of Swiss theologian Emil Brunner (1889–1966). It places Brunner's thought in dialogue with selected contributors from the contemporary social sciences, examining approaches from economics, sociology and philosophy as put forward by Gary S. Becker, Christian Smith and Martha Nussbaum. This dialogic format helps to crystallise both agreements and differences and thus facilitate greater understanding between theology and other disciplines. Questions explored in the discussion relate to

the emergence of human nature (the person) and the capabilities human beings possess, as well as how these develop in a social context. The author focuses in particular on the impact of sin (the Fall) and considers the mixed blessings of economic progress. By providing pointers on how to bring back the human person in social disciplines, the book hopes to contribute to improved understanding of the ethical dimension of social progress and human flourishing. It will be of particular interest to scholars of analytic and systematic theology, but also scholars from economics and social sciences with openness to theological engagement.

Seeking Truth and Speaking Truth Robert George, 2025-07-08 A wide-ranging collection of essays from one of America's leading public intellectuals. In *Seeking Truth and Speaking Truth* acclaimed political philosopher and legal scholar Robert P. George tackles one of the most vexing issues dividing Americans today. He argues that the Age of Faith of the Medieval period and the Age of Reason of the European Enlightenment have been followed by a modern Age of Feeling, in which people derive their beliefs not from faith or reason—or faith and reason—but from emotion, which becomes the central source of truth. And so, many have embraced a fierce moral absolutism on the basis of beliefs that are the products of nothing more than subjective inclinations and experiences. This collection of essays challenges the Age of Feeling by appealing to reason in the pursuit of sound moral understanding on crucial and contentious topics of human dignity, the definition of marriage, philosophy of law, constitutional law, the nature of civil liberties, free markets, and others. Robert George has taught generations of students at Princeton University and Harvard Law School, and he has long proclaimed that a teacher's sacred mission is to form his students to be determined truth seekers and courageous truth speakers. In *Seeking Truth and Speaking Truth* he shows us how it is done.

Reclaiming Accountability Heidi Kitrosser, 2015-01-06 Americans tend to believe in government that is transparent and accountable. Those who govern us work for us, and therefore they must also answer to us. But how do we reconcile calls for greater accountability with the competing need for secrecy, especially in matters of national security? Those two imperatives are usually taken to be antithetical, but Heidi Kitrosser argues convincingly that this is not the case—and that our concern ought to lie not with secrecy, but with the sort of unchecked secrecy that can result from “presidentialism,” or constitutional arguments for broad executive control of information. In *Reclaiming Accountability*, Kitrosser traces presidentialism from its start as part of a decades-old legal movement through its appearance during the Bush and Obama administrations, demonstrating its effects on secrecy throughout. Taking readers through the key presidentialist arguments—including “supremacy” and “unitary executive theory”—she explains how these arguments misread the Constitution in a way that is profoundly at odds with democratic principles. Kitrosser’s own reading offers a powerful corrective, showing how the Constitution provides myriad tools, including the power of Congress and the courts to enforce checks on presidential power, through which we could reclaim government accountability.
