Writing Alone and with Others Pat Schneider, 2003-08-28 For more than a quarter of a century, Pat Schneider has helped writers find and liberate their true voices. She has taught all kinds--the award winning, the struggling, and those who have been silenced by poverty and hardship. Her innovative methods have worked in classrooms from elementary to graduate level, in jail cells and public housing projects, in convents and seminaries, in youth at-risk programs, and with groups of the terminally ill. Now, in *Writing Alone and with Others*, Schneider's acclaimed methods are available in a single, well-organized, and highly readable volume. The first part of the book guides the reader through the perils of the solitary writing life: fear, writer's block, and the bad habits of the internal critic. In the second section, Schneider describes the Amherst Writers and Artists workshop method, widely used across the U.S. and abroad. Chapters on fiction and poetry address matters of technique and point to further resources, while more than a hundred writing exercises offer specific ways to jumpstart the blocked and stretch the rut-stuck. Schneider's innovative teaching method will refresh the experienced writer and encourage the beginner. Her book is the essential owner's manual for the writer's voice.

Families as Complex Systems Ana Teixeira de Melo, 2025-06-30 This book presents an innovative framework for conceptualising families as complex systems and for understanding and supporting positive change, adaptation and resilience. The development of this framework was based on a qualitative and abductive research process targeting change and resilience processes in multi-challenged families. The theoretical novelty of this book is mostly expressed in the notion of Love-Force: a relational force emerging from the coupling processes between individuals with potential transformative effects on them, their interactions and environments. This book introduces a new vocabulary for understanding the complexity of families as complex systems and their change and resilience processes. Love-Force is presented as a supreme expression of the complexity of families and human bonds. It elaborates on the complexity of the family bonds, on the relation of Love-Force to change and resilience and its contributions to the conceptualisation of the Potential for Family Change. Raising important theoretical and methodological challenges and questions, it presents a guide for future interdisciplinary research in the domains of complexity and family sciences and advances in practice. As such, it will be of interest to anyone interested in the complexity of human relations and to complexity scientists as much as family theorists, researchers and practitioners.

Muslims and Others in Early Islamic Society Robert Hoyland, 2021-03-24 The interaction between Muslims and the other religious denominations of the Middle East in the period 620-1020 is the subject of this volume. This is arguably the single most important issue in the history of the early Islamic Middle East, since the Muslims were initially a minority in the lands that they had conquered and so had to reach some *modus vivendi* with the various religious communities in their realm. Fifteen articles by leading scholars shed light on this process from a number of different perspectives: historical, conceptual, legal, social and theological. An introduction both gives an overview and examines possibilities for future research. The period under study is demarcated at one end by the Prophet Muhammed (d. 632) who, as the Qur'an tells us, had to deal with Jews, Christians and polytheists. At the other end lies the great legal/political thinker Manardi (d. ca. 1020), by whose time the Middle East had become substantially Islamicised.

This book acts as a beacon, illuminating the way towards self-liberation from the oppressive and often destructive clutches of diet culture. Diet culture – a societal system that glorifies thinness, promotes weight loss as a means to attain higher status, and stigmatizes certain foods – is a pervasive force that can adversely affect our self-perception and relationship with food. This book tackles the issue head-on, challenging the harmful narratives woven by diet culture, and inviting readers to take back control over their bodies and their lives. Feeding the Soul adopts a holistic approach towards understanding and addressing the complex issue of diet culture and its influences. The book begins by deconstructing diet culture, examining its origins, influences, and harmful effects on both individuals and society at large. It provides readers with the tools necessary to recognize and challenge the diet culture messages they encounter in their daily lives. Next, the book delves into the process of unlearning internalized diet culture. Using cognitive-behavioral techniques and mindfulness-based strategies, it equips readers with practical and effective tools to disrupt diet mentality and harmful behaviors, and to foster a healthier relationship with food and their bodies. The book then guides readers towards embracing their inherent worth beyond physical appearance. Through engaging exercises and inspiring personal stories, it aids readers

in recognizing and challenging the unrealistic beauty standards perpetuated by society. It provides practical strategies to cultivate self-love, compassion, and acceptance, and to shift the focus from external validation to internal self-affirmation. Feeding the Soul also explores the concept of mindful eating, encouraging readers to view food as nourishment rather than an enemy. It offers a fresh perspective on the pleasures of eating, aiding readers in reconnecting with the sensory experiences of food and in honoring their body's natural hunger and satiety cues. In the final sections, the book addresses the importance of resilience and self-advocacy in the face of diet culture, and offers guidance on becoming an advocate for body acceptance and a healthier relationship with food. The book closes with an invitation to continue the journey towards rejecting diet culture, embracing self-worth, and healing one's relationship with food. Feeding the Soul is not merely a self-help guide; it's a call to action, encouraging readers to question and challenge the pervasive and harmful effects of diet culture. It provides readers with the knowledge, skills, and tools necessary to reclaim their power, embrace their inherent worth, and create a more compassionate and nurturing relationship with food and their bodies. Throughout the book, the authors draw on a wealth of research and personal experiences, presenting information in an accessible, empathetic, and engaging manner. The book is filled with practical exercises, reflection questions, and personal stories that bring the concepts to life and allow readers to apply the insights to their own lives. Feeding the Soul: Reject Diet Culture, Embrace Your Worth, and Heal Your Relationship with Food is a revolutionary and empowering guide that provides a refreshing and much-needed alternative to the harmful narratives of diet culture. Vergil and the Trinity Thomas W. Dilbeck, 2025-09-12 This volume reveals how some Christian authors used the poetry of Vergil to explain important aspects of the three persons of the trinity, shedding new light on the attitudes of early Christians towards non-Christian texts. Readers gain insight into how Christians employed the work of Rome's most famous poet in discussions about the trinity, which one might assume were only limited to the use of canonical scripture. The book explores why these authors relied upon Vergil in particular and which portions of his corpus interested them, before analysing several examples in order to accurately contextualise how Vergil's work was cited and employed by the Latin Fathers in their own work. These Christian authors writing in Latin used Vergil for more substantive reasons than rhetorical ornamentation, and Dilbeck argues that they formed a textual community which included his works. Written in accessible prose, *Vergil and the Trinity* is of interest to not only to those working in the field of patristics, but also to classical scholars, biblical scholars, readers interested in the history of biblical interpretation, and in the history of philosophy.
