Saying What One Thinks Léa Salje,2025-02-24 Saying what one thinks can be difficult; sometimes one knows that a thought is there, but it takes time and effort to find its proper articulation. This book is about articulatory self-knowledge, or the sort of knowledge about one's own mind that results from successful attempts to articulate evasive thoughts of this kind. Rather than account for this phenomenon as mere verbal blockage or hermeneutical impoverishment, Lea Salje argues that the obstacle to articulation in these cases has to do with the representational metaphysics of the thought. When it first occurs, the thought has the wrong representational format to serve as the content of a sentence -- work must be done on it before it can be uttered aloud. What results is a picture of a little explored form of psychological self-knowledge that reveals hidden parts of one's mind to oneself even as one goes about creating the thought in its new, articulated form. The final parts of the book explore the role of conversation in drawing out articulations of this kind, and the possible expression of thoughts in art. By the end of *Saying What One Thinks*, articulatory self-knowledge no longer looks like a mere quirk of our psychology, but emerges as a central feature of distinctively human cognition.

Dylan Thomas John Goodby,Chris Wigginton,2024-12-13 An accessible introduction to the life and work of the inventive

Welsh poet. Dylan Thomas—author of some of the century's greatest poetry, stories, and film scripts as well as one of the greatest radio features ever broadcast, *Under Milk Wood*—is often characterized as self-indulgent. This concise and up-to-date biography challenges this depiction with a fresh portrait of the artist as a consummate professional. John Goodby and Chris Wigginton locate the source of Thomas's daring and inventive style in the poet's Anglo-Welsh origins as well as his historical, cultural, and social contexts: the Great Depression and 1930s literary London, surrealism, World War II, and Cold War popular culture. The result is a revealing and fresh introduction to the life and work of this important Welsh writer.

Diderot and Lessing as Exemplars of a Post-Spinozist Mentality Louise Crowther, 2010 Renowned as the chief challenger of traditional views of morality, man's freedom, and religion from 1650-1750, Benedict de Spinoza (1632-77) spread alarm and confusion throughout Europe through his writings. Theologians and rulers desperately sought to ban the spread of Spinozist ideas, and, in the post-Spinozist climate, eighteenth-century thinkers, often exasperated and perplexed, attempted to cope with the fallout from this intellectual explosion. The philosophical radicalism of Denis Diderot (1713-84), a French philosophe, and Gotthold Ephraim Lessing (1729-81), a German philosopher, well exemplifies the post-Spinozist mentality that permeated eighteenth-century thinking. As they grapple with the loss of intellectual, moral, and theological certainties, Diderot and Lessing re-work post-Spinozist ideas and in many instances elucidate even more radical ideas than Spinoza himself had envisaged.

The Penguin Book of English Song Richard Stokes, 2016-04-07 The Penguin Book of English Song anthologizes the work of 100 English poets who have inspired a host of different composers (some English, some not) to write vocal music. Each of the chapters, arranged chronologically from Chaucer to Auden, opens with a precis of the poet's life, work and, often, approach to music. Richard Stokes's notes and commentaries constantly illuminate the language and themes of the poems and their settings in unexpected ways. An awareness of how Ben Jonson based his famous poem 'Drinke to me, onely, with thine eyes' on a Greek original, for example, increases our enjoyment of both the poem and the traditional song; knowledge of Thomas Hardy's relationships with women deepens our appreciation of songs by Ireland, Finzi, Britten and others; Charles Dibdin's 'Tom Bowling', played each year at the Last Night of the Proms, takes on a deeper resonance when we know that it was written after the death of his brother Tom, a sea captain struck by lightning in the Indian Ocean. Many composers of different nationalities appear, but the book remains quintessentially British, and includes pieces that have an established place in our national consciousness: 'Rule, Britannia' (James Thomson), 'Abide with me' (Henry Francis Lyte), 'Auld lang syne' (Robert Burns), 'Jerusalem' (William Blake), 'Once in royal David's city' (Mrs C. F. Alexander), and even 'Twinkle, twinkle, little star' (Jane Taylor). The poems are printed in their original versification and spelling, enabling us to trace the development of the English language as the book progresses. The volume presents a huge amount of information about English Song that will enlighten all those who delight in the fusion of words and music. The presence of minor as well as

major poets and the unique principle of selection make The Penguin Book of English Song a highly original anthology of English verse.

Action Research: A Methodology For Change And Development Somekh, Bridget, 2005-12-01 This book presents a fresh view of action research as a methodology uniquely suited to researching the processes of innovation and change. Drawing on twenty-five years' experience of leading or facilitating action research projects, Bridget Somekh argues that action research can be a powerful systematic intervention, which goes beyond describing, analyzing and theorizing practices to reconstruct and transform those practices. The book examines action research into change in a range of educational settings, such as schools and classrooms, university departments, and a national evaluation of technology in schools. The opening chapter presents eight methodological principles and discusses key methodological issues. The focus then turns to action research in broader contexts such as 'southern' countries, health, business and management, and community development. Each chapter thereafter takes a specific research project as its starting point and critically reviews its design, relationships, knowledge outcomes, political engagement and impact. Action Research is important reading for postgraduate students and practitioner researchers in education, health and management, as well as those in government agencies and charities who wish to research and evaluate change and development initiatives. It is also valuable for pre-service and in-service training of professionals such as teachers, nurses and managers.
