Soft Computing Applications Kanad Ray, Millie Pant, Anirban Bandyopadhyay, 2018-03-29 This book provides a reference guide for researchers, scientists and industrialists working in the area of soft computing, and highlights the latest advances in and applications of soft computing techniques in multidisciplinary areas. Gathering papers presented at the International Conference on Soft Computing: Theories and Applications (SoCTA 2016), which was held in Jaipur, Rajasthan, India, on December 28-30, 2016, it focuses on applying soft computing to solve real-life problems arising in various domains, from medical and healthcare to supply chain management, image processing and cryptanalysis. The term soft computing represents an umbrella term for computational techniques like fuzzy logic, neural networks and nature inspired algorithms. In the past few decades, there has been an exponential rise in the application of soft computing techniques to address complex and intricate problems in diverse spheres of life. The versatility of these techniques has made them a favourite among scientists and researchers alike.

Indian Mujahideen V.S. Subrahmanian, Aaron Mannes, Animesh Roul, R.K. Raghavan, 2013-11-09 Advance Praise for Indian Mujahideen: Computational Analysis and Public Policy "This book presents a highly innovative computational approach to analyzing the strategic behavior of terrorist groups and formulating counter-terrorism policies. It would be very useful for international security analysts and policymakers." Uzi Arad, National Security Advisor to the Prime Minister of Israel and Head, Israel National Security Council (2009-2011) "An important book on a complex security problem. Issues have been analysed in depth based on quality research. Insightful and well-balanced in describing the way forward." Naresh Chandra, Indian Ambassador to the USA (1996-2001) and Cabinet Secretary (1990-1992). "An objective and clinical account of the origins, aims, extra-territorial links and modus-operandi, of a growingly dangerous terrorist organization that challenges the federal, democratic, secular and pluralistic ethos of India's polity. The authors have meticulously researched and analysed the multi-faceted challenges that the "Indian Mujahideen" poses and realistically dwelt on the ways in which these challenges could be faced and overcome." G. Parthasarathy, High Commissioner of India to Australia (1995-1998) and Pakistan (1998-2000). This book provides the first in-depth look at how advanced mathematics and modern computing technology can influence insights on analysis and policies directed at the Indian Mujahideen (IM) terrorist group. The book also summarizes how the IM group is committed to the destabilization of India by leveraging links with other terror groups such as Lashkar-e-

Taiba, and through support from the Pakistani Government and Pakistan's intelligence service. Foreword by The Hon. Louis J. Freeh.

Entertainment and Society Shay Sayre,Cynthia King,2010-04-05 The second edition of this innovative textbook introduces students to the ways that society shapes our many forms of entertainment and in turn, how entertainment shapes society. Entertainment and Society examines a broad range of types of entertainment that we enjoy in our daily lives - covering new areas like sports, video games, gambling, theme parks, travel, and shopping, as well as traditional entertainment media such as film, television, and print. A primary emphasis is placed on the impact of technological and cultural convergence on innovation and the influence of contemporary entertainment. The authors begin with a general overview of the study of entertainment, introducing readers to various ways of understanding leisure and play, and then go on to trace a brief history of the development of entertainment from its live forms through mediated technology. Subsequent chapters review a broad range of theories and research and provide focused discussions of the relationship between entertainment and key societal

factors including economics and commerce, culture, law, politics, ethics, advocacy and technology. The authors conclude by highlighting innovations and emerging trends in live and mediated entertainment and exploring their implications for the future. The new edition features updated examples and pedagogical features throughout including text boxes, case studies, student activities, questions for discussion, and suggestions for further reading.

A Complete eBook of Puzzles & Seating Arrangement (Second English Edition) Adda247 Publications, 2020-10-15
ADDA 247 has been consistently working to make the word "SUCCESS" a true companion to all the banking aspirants. As the year 2020 has just marked its presence, we are delighted to announce that ADDA 247 is launching - "A Complete eBook of Puzzles & Seating Arrangement" Second Edition. Puzzles are an important part of Reasoning Section, the one that you cannot escape from. It is the topic that dominates the Reasoning Section of all sorts of banking exams. So many other miscellaneous topics too are now being asked in the form of puzzles. The number of questions being asked on puzzles ranges from 60 to 65 percent of the total number of questions in the Reasoning Section. So it is now very obvious that the strategy of ignoring questions based on puzzles, thereby solving other questions won't be working anymore as neglecting questions on puzzles can risk the likelihood of you clearing the sectional cut off or scoring satisfactory marks in the Reasoning Section. It is already known to all the aspirants that Puzzles & Seating Arrangement form the most important part of the Reasoning Section as they carry the highest weightage among the other topics. So, considering all the significance that these portions carry, this eBook would provide all the necessary help and guidance in clearing the given sections smoothly. **SALIENT FEATURES:** -2500+ Questions on Puzzles & Seating Arrangement - New pattern Based Questions of 2017-18 Exams including 10 practice sets - Expect the Unexpected ones[Surprised Pattern] -Incorporates more than 10 Types of Puzzles & Sitting Arrangement -Incorporates the last 5-year Memory Based Questions asked in SBI, IBPS, RBI & Other Examinations

Fostering Innovation in Venture Capital and Startup Ecosystems Sharma, Renuka, Mehta, Kiran, Yu, Poshan, 2024-03-11
The disruptive potential of technologies such as Artificial Intelligence (AI), blockchain, the Internet of Things (IoT), and biotechnology catalysts redefine traditional business models and serve as instrumental forces in attracting venture capital investments. The lower barriers to entry, facilitated by these disruptive technologies, empower entrepreneurs to bring their ideas to market, creating a more accessible landscape for funding and innovation. *Fostering Innovation in Venture Capital and Startup Ecosystems* explores this transformative intersection, where emerging technologies catalyze change, fuel innovation, and redefine the dynamics of financial investments and entrepreneurial endeavors. Moreover, the book delves into how embracing AI, IoT, blockchain, and augmented reality/virtual reality can expedite innovation, enhance efficiency, and scale businesses. Through a multidisciplinary lens, readers understand how these technologies influence established

markets, drive economic growth, and create job opportunities. This book is ideal for venture capitalists, angel investors, entrepreneurs, startup founders, and policymakers.

Mediascape and The State Shekh Moinuddin, 2017-02-04 This book investigates image politics during elections and how the political discourse is reflected during the Uttar Pradesh assembly elections in 2012 by the media and the state. It reveals new dimensions of media geography in India and makes image construction and interpretation easy to comprehend. This interdisciplinary approach is located at the interface of geography with social, political, cultural, and media sciences. The book draws a geographical interpretation of politics to reveal the role of both media and the state to shape the political discourse with special focus on the privileged position of the “heartland” Uttar Pradesh in Indian politics. It studies the “mediascape” by highlighting application of media in both public and private spheres and discussing the importance of both old and new media, e.g., print, radio, TV, social media. Several crucial aspects are discussed and answered. How do media and politicians construct politics around the issue of minorities? How do media communalize issues during the election campaign? How can local issues gain national importance and shape national politics? This book appeals to scientists but also to graduates and postgraduates that want to understand the way image politics are performed.

Stardom in Contemporary Hindi Cinema Aysha Iqbal Viswamohan, Clare M. Wilkinson, 2020-01-03 In this book, film scholars, anthropologists, and critics discuss star-making in the contemporary Hindi-language film industry in India, also known as “Bollywood.” Drawing on theories of stardom, globalization, transnationalism, gender, and new media studies, the chapters explore contemporary Hindi film celebrity. With the rise of social media and India’s increased engagement in the global economy, Hindi film stars are forging their identities not just through their on-screen images and magazine and advertising appearances, but also through an array of media platforms, product endorsements, setting fashion trends, and involvement in social causes. Focusing on some of the best-known Indian stars since the late 1990s, the book discusses the multiplying avenues for forging a star identity, the strategies industry outsiders adopt to become stars, and the contradictions and conflicts that such star-making produces. It addresses questions such as: What traits of contemporary

stars have contributed most to longevity and success in the industry? How has filmmaking technology and practice altered the nature of stardom? How has the manufacture of celebrity altered with the recent appearance of commodity culture in India and the rise of a hyper-connected global economy? By doing so, it describes a distinct moment in India and in the world in which stars and stardom are drawn more closely than ever into the vital events of global culture. Hindi films and their stars are part of the national and global entertainment circuits that are bigger and more competitive than ever. As such, this is a timely book creates opportunities for examining stardom in other industries and provides fruitful cross-cultural perspectives on star identities today. Grounded in rigorous scholarship as well as a palpable love of Hindi cinema, this collection of 19 essays on a dizzying array of contemporary Hindi film stars makes for an informative, thought-provoking, illuminating, and most of all, a joyful read. Pushing boundaries of not only global Star Studies but also film theory as a whole, this de-colonised and de-colonising volume is a must read for film scholars, students and cinephiles! Dr. Sunny Singh, Senior Lecturer - Creative Writing and English Literature, Sir John Cass School of Art, Architecture & Design, London Metropolitan University "A wide-ranging overview of Hindi cinema's filmi firmament today, focussing on its most intriguing and brightest-burning stars. The variety of approaches to stardom and celebrity by both established and upcoming scholars reveals a web of interconnecting stories and concerns that provide fascinating new insights into the workings of today's Hindi film industry, while shining fresh light on contemporary India and the world we live in." Professor Rosie Thomas, Centre for Research and Education in Arts and Media (CREAM), College of Design, Creative and Digital Industries, University of Westminster

India, China and the Strategic Himalayas Sangeeta Thapliyal, 2023-10-20 This book analyses strategic discourse on the Himalayas from the perspective of India's interests. Home to many communities, cultures, natural resources and political boundaries, it is the geopolitical landscape of the Himalayas between India and China that dominates other narratives and discourses. The traditional notion of Himalayas as India's frontiers and buffer is challenged by China. Despite various mechanisms to address border resolution there are violations and transgressions from China. This book examines India's responses to the new emerging challenges in the Himalayas. How the statist discourse on strategic interests incorporates people's discourse. It provides a nuanced understanding of India's strategic undertakings, diplomatic initiatives and development framework. This book will be a valuable addition to existing knowledge on the Himalayas between India and China. Scholars and practitioners interested in International Relations, Strategic Studies, Himalayan Studies and South Asian Studies will find it useful.

Peace through Tourism Lynda-ann Blanchard, Freya Higgins-Desbiolles, 2013-08-15 Peace through tourism refers to a body of analysis which suggests tourism may contribute to cross-cultural understanding, tolerance and even peace between communities and nations. What has been largely missing to date is a sustained critique of the potential and capacities of tourism to foster global peace. This timely volume fills this void, by providing a critical look at tourism in order to ascertain

its potential as a social force to promote human rights, justice and peace. It presents an alternative characterisation of the possibilities for peace through tourism: embedding an understanding of the phenomenon in a deep grounding in multi-disciplinary perspectives and envisioning tourism in the context of human rights, social justice and ecological integrity. Such an approach engages the ambivalence and dichotomy of views held on peace tourism by relying on a pedagogy of peace. It integrates a range of perspectives from scholars from many disciplinary backgrounds, non-governmental organisations (NGOs), tourism industry operators and community, all united by an interest in critical approaches to understanding peace through tourism. Additionally diverse geo-political contexts are represented in this book from the USA, India, Japan, Israel, Palestine, Kenya, the Koreas, Indonesia, East Timor and Indigenous Australia. Written by leading academics, this groundbreaking book will provide students, researchers and academics a sustained critique of the potential and capacities of tourism to foster global peace.
