Enseñar Historia al margen de los cuerpos. CASTILLEJO CAMBRA Emilio ,2022-03-01 En el seno del Departamento de Historia de la Educación y Educación Comparada de la UNED se lleva a cabo desde 1992 una amplia investigación sobre los manuales escolares de los siglos XIX y XX —Proyecto MANES—, proyecto de carácter interdisciplinar e interuniversitario en el que colaboran investigadores de diversas universidades e instituciones españolas, europeas y latinoamericanas. En la actualidad este grupo de investigación está integrado en el Centro de Investigación MANES. Fruto del trabajo de todos estos años son los diversos títulos que han visto la luz en esta colección. La obra Enseñar Historia al margen de los cuerpos. El cuerpo y sus metáforas en la historiografía escolar española desde el siglo XIX a la actualidad se pregunta por las razones de la débil presencia que ha tenido (y tiene) el cuerpo en la enseñanza de la historia en España, a pesar de que el cuerpo es lo que permite al ser humano relacionarse con el mundo, construir la civilización, y que la piel es el lugar más indicado para leer las huellas, casi siempre dolorosas, de la historia. Esta pregunta halla una doble respuesta. Argumentos antiguos como el desprecio de la mentalidad católica por el cuerpo, imperante durante decenios en el sistema educativo; o el tradicional protagonismo de las grandes metáforas que aniquilan los cuerpos reales: el Cuerpo Místico de Cristo, la Iglesia, que favorece el olvido de las víctimas de la intransigencia religiosa; el Cuerpo Social, en cuyo nombre se olvidan los cuerpos que trabajan; el Cuerpo Nacional, que siempre procura el olvido de los muertos en su nombre. Y argumentos nuevos: el pudor moderno que tiende a esconder y escamotear los cuerpos; o el pensamiento técnico que tiende a justificar la explotación de los cuerpos en nombre del progreso. La conclusión es obvia: sólo confirmando al cuerpo la dignidad que merece, es posible humanizar la historia.

La enseñanza de la Historia como articulación de las masas Emilio Castillejo Cambra,2025-06-10 Las élites políticas, intelectuales y sociales, impulsadas por el miedo a la alteración del orden social, han construido históricamente la imagen de unas masas irracionales, violentas, incapaces de construir nada bello. Esta obra pretende evidenciar cómo la enseñanza de la Historia, cuyo texto más visible es la historiografía escolar, los manuales de Historia, ha sido uno de los instrumentos de transmisión de esa imagen, que se ha desplegado a través de distintos discursos (tradicionalista, integrista, conservador, falangista...) desde los orígenes del sistema educativo hasta hoy. Cada uno de esos discursos, para conjurar el

miedo a las masas, las pretende articular en torno a un pasado, una identidad, una herencia, una tradición que las convierte en pueblo; les ofrece un proyecto social de futuro, un horizonte utópico, sea reaccionario o modernizador, y les señala las élites adecuadas para llevarlo a cabo, sean arcaicas o innovadoras. Pero en la historiografía escolar se han desplegado también discursos alternativos: el liberal-humanitario, con una fuerte carga ética, muestra más confianza en el pueblo y ofrece como horizonte la democracia; el del partido de la ciencia, muy débil, interesado en la búsqueda de la verdad historiográfica, aflora solo desde la Transición y se distancia de cualquier identidad o proyecto social.

Religious Diversity in Europe Riho Altnurme, Elena Arigita, Patrick Pasture, 2022-03-10 Drawing on research funded by the European Commission, this book explores how religious diversity has been, and continues to be, represented in cultural contexts in Western Europe, particularly to teenagers: in textbooks, museums and exhibitions, popular youth culture including TV and online, as well as in political speech. Topics include the findings from focus group interviews with teenagers in schools across Europe, the representation of minority religions in museums, migration and youth subculture.

La nueva realidad social en época de crisis Sonsoles Carderón López, Roberto Moreno López, José Manuel López Terán, 2024-02-01 Los temas que aborda esta obra reflejan la diversidad de desafíos y oportunidades en el ámbito de la educación social y el trabajo social. La percepción profesional del ingreso mínimo vital destaca la necesidad de evaluar sus impactos y expectativas, con el énfasis puesto en la perspectiva de género. La Pedagogía de la muerte, investigada cuantitativamente en la Universidad de Castilla-La Mancha, ofrece una mirada educativa a un tema complejo. La docencia de la cooperación internacional en Educación Social se presenta como un valor clave en momentos de crisis, resaltando la práctica profesional de los educadores sociales en este contexto. La distribución de roles de género durante el confinamiento

y el análisis del impacto de la covid en la organización del trabajo de cuidados exploran cambios significativos en la dinámica familiar. La mirada social y educativa a través del arte sugiere la utilización del arte como una herramienta para la comprensión social y educativa. Además, la desigualdad y la sociedad digital revelan las disparidades sociales en el entorno digital, mientras que la igualdad de género y la violencia en el trabajo evidencian la importancia de los protocolos para abordar el acoso. Estos temas también entran en cuestiones éticas y deontológicas en la educación social, así como en retos específicos en la formación de educadores sociales. Se hace hincapié en la intervención desde el trabajo social ante políticas sociales, en especial en el caso del derecho de asilo por razón de orientación sexual e identidad de género. Además, se analizan estrategias innovadoras para incorporar los Objetivos de Desarrollo Sostenible en la enseñanza universitaria, mostrando un compromiso con el desarrollo sostenible en el ámbito educativo.

Mors certa, hora incerta. Tradiciones, representaciones y educación ante la muerte Sara González Gómez, Iván Pérez Miranda, Alba María Gómez Sánchez, 2016-02-01 A lo largo de la historia se han ido consolidando una serie de ideas, enfoques, imágenes y costumbres que han contribuido, sin duda, a crear o consolidar un imaginario social y colectivo en torno a la muerte, a educar, en fin, de una forma u otra, en lo que la muerte representa y supone para las personas. A pesar de la innegable certeza de que la muerte forma parte de la propia vida, la aceptación de aquélla como algo connatural se convierte en una cuestión de enorme complejidad, especialmente en el mundo contemporáneo. A partir de estas consideraciones generales nace el proyecto de elaborar el presente libro que lleva por título *Mors certa, hora incerta. Tradiciones, representaciones y educación ante la muerte*. Los once estudios que componen la obra colectiva que aquí se presenta, y que han sido redactados por profesionales de diversas procedencias (Brasil, España, Italia, y Portugal), constituyen un honesto esfuerzo encaminado a ampliar una línea de investigación poco cultivada hasta el momento: la reflexión en torno a la muerte, desde la perspectiva de su imbricación con tradiciones, ritos y costumbres históricas; de su representación en la literatura, textos y materiales escolares; y, en definitiva, de todo el proceso inherente a la construcción/deconstrucción del tabú de la muerte. El lector tiene pues a su disposición una original aportación a partir de la cual se espera poder abrir nuevas vías de investigación, desde un enfoque de estudio histórico, filosófico y/o educativo, y que tengan en la muerte su leitmotiv, entendida siempre como algo consustancial al ser humano.

Framing Europe Juan Díez Medrano, 2021-07-13 This book provides a major empirical analysis of differing attitudes to European integration in three of Europe's most important countries: Germany, Spain, and the United Kingdom. From its beginnings, the European Union has resounded with debate over whether to move toward a federal or intergovernmental system. However, Juan Díez Medrano argues that empirical analyses of support for integration--by specialists in international relations, comparative politics, and survey research--have failed to explain why some countries lean toward federalism whereas others lean toward intergovernmentalism. By applying frame analysis to a unique set of primary sources (in-depth interviews, newspaper articles, novels, history texts, political speeches, and survey data), Díez Medrano demonstrates the role of major historical events in transforming national cultures and thus creating new opportunities for political transformation. Clearly written and rigorously argued, *Framing Europe* explains differences in support for European integration between the three countries studied in light of the degree to which each realized its particular supranational project outside Western Europe. Only the United Kingdom succeeded in consolidating an empire and retaining it after World War II, while Germany and Spain each abandoned their corresponding aspirations. These differences meant that these countries' populations developed different degrees of identification as Europeans and, partly in consequence, different degrees of support for the building of a federal Europe.

Enseñanza y aprendizaje de la Geografía para el siglo XXI Rafael Sebastián Alcaraz, Emilia María Tonda Monllor, 2017-01-16 Entre los objetivos principales y explícitos de este libro se halla el de trasladar a la sociedad los principales avances que se están realizando en la enseñanza de la Geografía. Investigadores de la ciencia geográfica nos muestran los últimos avances y orientan a los docentes sobre los principales recursos y métodos didácticos. Entre los retos que se enfrenta cualquier docente se encuentra el de quedar obsoleto en los conocimientos de la ciencia de referencia y particularmente en este caso, en los procedentes de la Geografía, pero la propia evolución de la sociedad, así como de la Geografía, justifica la presente propuesta de actualizar la formación en la enseñanza de la Geografía. Los autores consideran que esta publicación contribuye a llenar el vacío formativo que viven los alumnos de formación inicial de los estudios de maestro y del máster de profesores de secundaria. Del mismo modo, este libro atiende a la necesidad de los docentes en activo por renovarse y actualizarse. La formación continua constituye un reto para todo profesional y más en el mundo tan dinámico de la enseñanza donde fluyen con suma rapidez tanto los contenidos de la ciencia de referencia, como los métodos de enseñanza. El libro recoge la investigación e innovación en la enseñanza de la Geografía que se deriva tanto de la incorporación de nuevas metodologías didácticas como de los avances tecnológicos.

The flipped classroom Javier Tourón, Raúl Santiago, 2014-10-16 The flipped classroom. Cómo convertir la escuela en un espacio de aprendizaje es un tanto peculiar en el sentido de que, como libro digital que es, lo hemos concebido como un instrumento sin fronteras; es decir que, aún cuando con una razonable extensión los temas que trata, apela con frecuencia

conocimientos que no están en él.
