Speech Analysis: Martin Luther King, Jr.'s Speech, "I have a dream." Mary C. Schlader, 1975

The Rhetoric of Redemption David A. Bobbitt, 2007-02-16 The Rhetoric of Redemption applies Kenneth Burke's theory of guilt-purification-redemption in a close, critical analysis of Martin Luther King, Jr.'s 'I Have A Dream' speech, developing and examining the implications of Burke's redemption drama in contemporary public discourse...

Discourse, of Course Jan Renkema, 2009 Discourse, of Course comes after Jan Renkema's Introduction to Discourse Studies (2004) for undergraduates. The new book is a collection of twenty short papers. It is a capita selecta course and meant for graduate programs. The aim of this book is threefold: to present material for advanced courses in discourse studies; to unfold a stimulating display of research projects to future PhD students; to give an overview of new developments after the 2004 Introduction to Discourse Studies. This publication fulfills both the teacher's need for a state-of-the-art overview of the main topics in discourse, and the student's need to acquire standards for developing research plans in theses and dissertations. It gives a combination of approaches from very different schools in discourse studies, ranging from argumentation theory to genre theory, from the study of multimodal metaphors to cognitive approaches to coherence analysis. This book is not only meant to serve as a textbook, but also as a reference book for researchers who want an update for various main topics in the field.

I Have a Dream, 2015

Understanding Political Persuasion: Linguistic and Rhetorical Analysis Douglas Mark Ponton, 2020-04-02 This book builds on the consolidated research field of Political Discourse Analysis and attempts to provide an introduction suitable for adoption amongst a readership wishing to understand some of the principles underlying such research, and above all to appreciate how the tools of discourse analysis might be applied to actual texts. It summarises some of the work that has been done in this field by authorities such as Halliday, Fairclough, Wodak, Chilton, Van Dijk, Martin, Van Leeuwen and others to provide the would-be analyst with practical ideas for their own research. Naturally, this would not be the first time that such a handbook or introductory reference book has been proposed. Fairclough himself recently produced one; however, his work, simply entitled Political Discourse Analysis, inevitably includes theoretical insights from his own research. The beginning analyst can, at times, experience a sense of bewilderment at the mass of theoretical writing in linguistics, in the search for

some practical, usable tools. I explain a variety of such tools, demonstrating their usefulness in application to the analysis of a number of political speeches, from different historical periods and diverse social contexts. The author's hope is that would-be students of political rhetoric, of whatever level and from a variety of research areas, will be able to pick up this book and find tools and techniques that will assist them in actual work on texts. Naturally, it is also hoped that they will be inspired to follow up the suggestions for further reading which they will find in the bibliography.

Prose Analysis Hugo Raines, AI, 2025-05-06 *Prose Analysis* explores how stylistic elements and grammatical structures shape written communication. The book argues that understanding these elements is crucial for both critical reading and effective writing. By examining syntax, diction, imagery, and rhetorical devices, readers gain insights into how authors manipulate language to influence perception and emotional response. For example, the book dissects how sentence structure can establish rhythm and clarity, or how figurative language can evoke powerful emotions. The book progresses systematically, first defining key terms and then demonstrating how these elements interact to create specific tones. It analyzes how authors manipulate sentence structure and pacing to control reader engagement and provides a framework for independent textual analysis. Through close reading techniques applied to diverse texts, readers learn to appreciate the artistry of skilled writers and improve their own ability to craft compelling prose. It emphasizes a hands-on approach to textual analysis, bridging the gap between scientific analysis and subjective interpretation.

A Rhetorical Analysis of Dr. Martin Luther King's Speech, I Have a Dream Gloria Harrison Reese, 1971

The Fundamentals of Argument Analysis Richard L Epstein, 2018-11-05 This series of books presents the fundamentals of logic in a style accessible to both students and scholars. The text of each essay presents a story, the main line of development of the ideas, while the notes and appendices place the research within a larger scholarly context. The essays overlap, forming a unified analysis of logic as the art of reasoning well, yet each essay is designed so that it may be read independently. The question addressed in this volume is how we can justify our beliefs through reasoning. The first essay, *Arguments*, investigates what it is that we call true or false and how we reason toward truths through arguments. A general theory of argument analysis is set out on the basis of what we can assume about those with whom we reason. The next essay, *Fallacies*, explains how the classification of an argument as a fallacy can be used within that general approach. In contrast, there is no agreement on what the terms induction and deduction mean, and they are not useful in evaluating arguments, as shown in *Induction and Deduction*. In reasoning to truths, in the end we must take some claims as basic, not requiring any justification for accepting them. How we choose those claims and how they affect our reasoning is examined in *Base Claims*. The essay *Analogies* considers how comparisons can be used as the basis of arguments, arguing from similar situations to similar conclusions. An important use of analogies is in reasoning about the mental life of other people and things, which is examined in *Subjective Claims*, written with Fred Kroon and William S. Robinson. *Generalizing* examines how to argue from

part of a collection or mass to the whole or a larger part. The question there is whether we are ever justified in accepting such an argument as good. Probabilities sets out the three main ways probability statements have been interpreted: the logical relation view, the frequency view, and the subjective degree of belief view. Each of those is shown to be inadequate to make precise the scale of plausibility of claims and the scale of the likelihood of a possibility. Many discussions of how to reason well and what counts as good reason are given in terms of who or what is rational. In the final essay, Rationality, it's shown that what we mean by the idea of someone being rational is of very little use in evaluating reasoning or actions. This volume is meant to give a clearer idea of how to reason well, setting out methods of evaluation that are motivated in terms of our abilities and interests. At the ground of our reasoning, though, are metaphysical assumptions, too basic and too much needed in our reasoning for us to justify them through reasoning. But we can try to uncover those assumptions to see how they are important and what depends on them.

Martin Luther King's Biblical Epic Keith D. Miller, 2011-11-15 In his final speech "I've Been to the Mountaintop," Martin Luther King Jr. delivered his support of African American garbage workers on strike in Memphis. Although some consider this oration King's finest, it is mainly known for its concluding two minutes, wherein King compares himself to Moses and seems to predict his own assassination. But King gave an hour-long speech, and the concluding segment can only be understood in relation to the whole. King scholars generally focus on his theology, not his relation to the Bible or the circumstance of a Baptist speaking in a Pentecostal setting. Even though King cited and explicated the Bible in hundreds of speeches and sermons, Martin Luther King's Biblical Epic is the first book to analyze his approach to the Bible and its importance to his rhetoric and persuasiveness. Martin Luther King's Biblical Epic argues that King challenged dominant Christian supersessionist conceptions of Judaism in favor of a Christianity that affirms Judaism as its wellspring. In his final speech, King implicitly but strongly argues that one can grasp Jesus only by first grasping Moses and the Hebrew prophets. This book also traces the roots of King's speech to its Pentecostal setting and to the Pentecostals in his audience. In doing so, Miller puts forth the first scholarship to credit the mostly unknown, but brilliant African American architect who created the large yet compact church sanctuary, which made possible the unique connection between King and his audience on the night of his last speech.

The Spirit of Justice Jemar Tisby, 2024-09-03 The Black History You Never Knew: Uncovering Unsung Heroes in the Struggle for Racial Justice. The Spirit of Justice reveals the stories of the people who fought against racism and agitated for justice—and what we can learn from their example, their suffering, their methods, and their hope. How is it that people still work for change after continuously seeing the worst of humanity and experiencing the most demoralizing setbacks? What keeps them going? It is that spirit of justice that rises up like a war horse, as Myrlie Evers-Williams famously said. It is a sense in the hearts of people who hunger and thirst for righteousness. In this book, award-winning author Jemar Tisby will open your eyes to the pattern of endurance in the centuries-long struggle for Black freedom in America. Through a historical survey of the nation from its founding to the present day, this book gives real-world examples of people who opposed racism, how they did it, what it cost, and what they gained for themselves and others. For those who were galvanized by Tisby's call to action in his acclaimed *The Color of Compromise*, this book will inspire you to see past the complicity of the church and gain the determination to join the fight for racial justice, no matter the cost. As Tisby writes, The Spirit of justice is always at work to inspire followers of Christ to undertake acts of liberation and bear witness to the good news of their savior.

Discourse Analysis of Language, Literacy, Culture, and Teaching Denise Ives, 2023-12-05 An essential text on discourse theory and analytic methods, this book demonstrates the possibilities of using discourse analysis to better understand language, literacy, culture, and teaching. Each chapter provides coherent, extended examples of individuals engaged in the process of doing discourse analysis. The narrative approach highlights the individual experiences of the discourse analysts and provides a unique, inside-the-mind view of the process and choices along the way. Across the book, stories describe processes involved in analyses, including identifying aims, formulating questions, selecting discourse, transcribing oral and multimodal discourse, translating discourse, chunking discourse, choosing and applying discourse and other theory, generating and supporting claims, and communicating findings. Chapters also feature sidebars with key theories and methods, recommended readings, and additional resources. This book is ideal for courses on discourse analysis, qualitative research, or language, literacy, culture, and teaching. Readers are invited to imagine the possibilities for using discourse analysis to answer their own questions.

Flowerdew, 2011-12-01 The book shows how the study of the evolving discourse employed during a political process spanning more than a decade can provide insights for critical discourse analysis, on the one hand, and understanding of a real world political process on the other, thereby demonstrating the potential role for critical discourse analysis in historiography.

The Role of Ideas in the Civil Rights South, With essays by Tony Badger, David L. Chappell, Elizabeth Jacoway, Richard H. King, Ralph E. Luker, Charles Marsh, Keith D. Miller, Linda Reed, and Lauren F. Winner In the 1950s and 1960s the American South was in upheaval. Brilliant thinkers and writers joined on-the-ground activists to challenge segregation and the South's long established Jim Crow society. The men and women who opposed them waged a war of words in favor of

the status quo. The essays in *The Role of Ideas in the Civil Rights South* examine the interplay of thought and action in a complex and turbulent moment in American history. Written by scholars in history, English, and religious studies, these essays explore ideas about religion, freedom, race, liberalism, and conservatism. When people challenged authority, or defended it, what ideas did they uphold? What were their moral and intellectual standards? What language did they use, and what sources did they cite? What issues did they feel needed explaining, what issues did they take for granted, and what issues did they avoid? Leading scholars investigate the wide range of conceptions, interpretations, and responses to the whirlwind of change. Some of the essays concentrate on intellectuals who were systematic thinkers who published their work to be studied, analyzed, and used. Four essays center on the ideas of Martin Luther King, Jr., surely the most influential southern intellectual in the 1950s and 1960s. Other essays analyze the thoughts of people, such as civil rights activist Fannie Lou Hamer and segregationist politician Jim Johnson, who never saw themselves as intellectuals. The civil rights movement set the agenda for thought and action in the 1950s and 1960s. *The Role of Ideas in the Civil Rights South* begins by examining ideas prominent in the movement. It then studies the ideas of white moderates in the South, white conservatives, and African Americans who did not join the movement. Particular emphases include the relationship between theology and political life, the national and international contexts of southern thought, and the variety of southern intellectual interests. Ted Ownby is a professor of history and southern studies at the University of Mississippi. His books include *American Dreams in Mississippi: Consumers, Poverty, and Culture, 1830-1998* (1999) and *Subduing Satan: Religion, Recreation, and Manhood in the Rural South, 1865-1920* (1990).

Fallacies Hans V. Hansen, Robert C. Pinto, 1995 Since 1970, when Charles Hamblin issued a challenge for philosophers, logicians, and educators in general to begin work anew in fallacies, a serious literature on fallacies has indeed developed. Part of this literature deals with the theory of what fallacies are; another part of it contains rigorous analyses of particular fallacies. However, most is still not readily accessible to the researcher, teacher, or student of the field. As a result, the best work on fallacies is not finding its way into the classroom, nor is it informing the educational and intellectual experiences available to most college and university students. A major purpose of this book is to make the post-Hamblin work on fallacies available to a wider audience in a single, convenient volume. The editors have brought together for the first time the most important historical writings on fallacy theory, from Aristotle to John Stuart Mill, and the most recent and most important theoretical and pedagogical developments in the field since Hamblin's landmark 1970 book. All but a few of the essays included are new contributions for this anthology, and an extensive annotated bibliography is included for researchers and students of fallacies and fallacy theory.
