Administrative Subdivisions of Countries Gwillim Law, 2015-05-20 In marked contrast to the United States, with its territorial stability, some countries, such as Bulgaria and Ethiopia, reorganize their regional subdivisions frequently. This large-format reference work simplifies the comparison of decades' worth of data from such countries: With this book in hand, one can answer any administrative subdivision question about any state or province in the world from 1900 through 1998--Abstracts of Public Administration, Development and Environment. For each country there is at least one table, and usually several. Histories of subdivision changes and lists of alternate names for subdivisions in each country add to the work's research value. All relevant national and international standards such as ISO and FIPS codes are listed, as well as time zones, populations, areas and capitals for each subdivision. There is a comprehensive index of names.

The World of Wine and Food Don Philpott, 2016-10-20 Many wine drinkers would like to be more adventurous but are reluctant to experiment by choosing an unknown wine that may disappoint. There are literally tens of thousands of wines and scores of countries around the globe producing them - and shelf after shelf of different Merlots or Pinot Grigio can be a little intimidating. How to choose the right wine is one problem, deciding on what to serve it with is another. Why do some wines taste better with some foods and why do other wines taste dreadful when paired with certain dishes? This comprehensive review of wine and food offers the information needed so that people will feel empowered and ready to experiment with their wine selections and then be able to pair them with the right foods for a memorable taste experience. Every major wine producing country in the world is covered, the wine producing regions within those countries, grapes used, and the styles of wines made. Every major cuisine of the world is covered including many of the most popular dishes. The reader is then shown how to marry the right wine with the right food. Easy and accessible, this reference belongs on the shelves of any true oenophile as well as the novice wine lover.

Vino Italiano Joseph Bastianich, David Lynch, 2012-07-11 At one time, Italian wines conjured images of cheap Chianti in straw-wrapped bottles. More recently, expensive “Super Tuscans” have been the rage. But between these extremes lay a bounty of delicious, moderately priced wines that belong in every wine drinker’s repertoire. *Vino Italiano* is the only comprehensive and authoritative American guide to the wines of Italy. It surveys the country’s wine-producing regions; identifies key wine styles, producers, and vintages; and offers delicious regional recipes. Extensive reference materials—on Italy’s 300 growing zones, 361 authorized grape varieties, and 200 of the top producers—provide essential information for restaurateurs and wine merchants, as well as for wine enthusiasts. Beautifully illustrated as well as informative, *Vino Italiano* is the perfect invitation to the Italian wine experience.

The Regions of Italy Roy P. Domenico, 2001-12-30 Through most of their history, Italians have identified more with their own locales than with what is now known as Italy. This comprehensive reference allows readers to view the land as its denizens have for centuries—regionally. Domenico superbly surveys the regional and provincial characteristics and culture of the 20 regions, including economy, cuisine, history, recent politics, and arts. This is the only single general reference volume in English on Italy’s regions and will be highly in demand by teachers, students of Italian language and culture, and travelers. Italy’s enormous contributions to western civilization continue to make it a cultural and economic powerhouse and a top tourist destination. *The Regions of Italy* succinctly conveys the formidable richness of the whole through its parts, with a user-friendly format that makes it easy to glean the important information on the area of interest. A chronology, glossary, and wide selection of photos accompany the text.

A Community at the Heart of Europe Zaira Vidau, 2020-03-26 Nestled in the heart of the “Old Continent”, along the border between Slovenia and the Italian region of Friuli Venezia Giulia, Slovenes in Italy form one of Europe’s national minorities. This volume presents an up-to-date overview of their efforts to preserve their cultural and linguistic heritage and distinctiveness. The Slovene national community in Italy has been affected by profound and at times devastating events, including both World Wars, the fascist period and the lengthy process of defining the border between Italy and Yugoslavia. The collapse of the Berlin Wall, Slovenia’s declaration of independence and the process of globalisation have provided the community with new forms of protection, but also presented it with further challenges associated with adopting its development guidelines. This book is dedicated to researchers on ethnic studies, civil rights activists and politicians dealing with minority and human rights and diversity management, as well as tourists, teachers and students.

Cultural Disenchantments Douglas R. Holmes, 1989-09-21 Douglas Holmes develops the concept of peasant-worker society to analyze a kind of social formation that has until now gone largely unrecognized and unstudied. His book portrays the dissonant crosscurrents created at the interface of urban industrial and rural peasant spheres. Examining the region of

Friuli in northeast Italy, it shows how wage labor was adopted by country folk who maintained ties to small-scale cultivation and indigenous traditions. Holmes draws on the Weberian notion of the disenchantment of the world to examine the cultural issues that animate peasant-worker life. What emerges is a vivid picture of the economic, political, religious, and ethnic struggles that infuse the peasant-worker milieu, as traditional representations of reality are pitted against bureaucratic definitions and formulas emanating from Church, state, and market institutions. In addition to providing a general theoretical framework for the analysis of peasant-worker society and culture, *Cultural Disenchantments* is the first anthropological study of Friuli to be published in English. As such, it elaborates on the historical insights developed by Carlo Ginzburg in his famous study of sixteenth-century agrarian cults and folk traditions in Friuli.

Governing Fear Gianfranco Baldini, Anna Cento Bull, 2009 In 2008, Silvio Berlusconi returned to power — thanks to a decisive electoral victory — to head a slimmer coalition whose cabinet consisted of members very close to him. The year began with the garbage crisis in Naples and ended in a climate dominated by economic uncertainty. In between some unexpected events happened: during the administrative elections, held with the general elections in April, the right in Rome claimed many victories; for the first time ever, a woman, Emma Marcegaglia, was elected President of Confindustria; and the Alitalia airline had to be rescued from the brink of economic collapse. For consecutive months, opinion polls gave Berlusconi an unprecedented level of popular support; those polled attributed their approval to either his ‘decisionism’ or to what they viewed as a successful strategy of continual announcements. Others pointed to the executive’s success in ‘governing the fears’ of Italians, which was helped by a change of register in the way the media dealt with issues of security. This volume shows that the politics of vetoes, which characterised the previous center-left government, could not conceal the structural, economic and social problems that still need to be resolved, a situation not helped by the fact that the opposition parties were still unable to develop an effective political strategy by year-end. With the contribution of Italian and international experts, the volume also addresses the issues of the difficult integration of immigrants, the mismanagement of public health and the reform of the education.

Re-inhabiting Cold War Sites Olivia Longo, Davide Sigurtà, Carlotta Coccoli, 2021-12-31 In the north-east of Italy the sites of the Cold War represent an excellent opportunity to enhance the landscapes and cultures of the places where they are located. By their nature these sites were part of an international and intercontinental technological and military context. Gathering theoretical insights and design practice for the enhancement of these important sites, this book collects different international experiences around the theme of the reuse and architectural design of recently abandoned military areas to try to awaken attention to these important territorial signs that are in danger of disappearing.
