These Are the Names John Levi,2013-04-01 Between 1788 and 1850, more than 1500 Jewish men and women were either transported to Australia as convicts or arrived as free settlers. This important biographical dictionary presents the details - occasionally sketchy but sometimes extensive - of more than 1500 of these pioneers. Rabbi John Levi's painstaking research through the fragmentary and often contradictory colonial records has culminated in an invaluable reference work and resource. A wealth of information, including birth names, extra names, nicknames, aliases and maiden names, together with details of marriages, children and occupations, makes *These are the Names* a major contribution to an important but little-recognised aspect of Australia's settlement history. For the first time, the earliest generation of Jews to settle in Australia is named and remembered.

Early Australian History. Convict Life in New South Wales and Van Diemen's Land Charles White,2023-11-21 In *Early Australian History: Convict Life in New South Wales and Van Diemen's Land*, Charles White provides an intricate exploration of the convict era in Australia, meticulously charting the social, economic, and psychological impacts of transportation on both the convicts and the colonial society. White employs a scholarly yet accessible narrative style, intertwining historical facts with vivid personal accounts and primary sources, thus offering a multifaceted view of life in the penal colonies. This book not only serves as an essential chronicle of the period but also critiques the broader implications of colonialism and the evolution of Australian identity in the 19th century. Charles White, a historian with a profound interest in Australia's early colonial history, draws from extensive research and personal ties to the region to shed light on a largely overlooked chapter in Australian literature. His dedication stems from a desire to give voice to the convicts, who are often reduced to mere statistics in academic discussions, as well as to detail the harsh realities and complexities of their existence in a foreign land. This compelling book is a must-read for scholars, students, and general readers alike, as it enriches our understanding of Australia's penal heritage and the resilience of the human spirit. Through White's insightful analysis, readers are invited to

engage with the foundational narratives of Australia and to reflect on the historical trajectories that shape contemporary society.

Before the First Fleet to Australia John Gardiner, 2024-09-13 Most know the story of Australia's First Fleet. But who were those convicts, sailors, marines and administrators who travelled to Botany Bay in 1787? And who orchestrated this ambitious expedition? In his meticulously researched new book, John Gardiner pulls back the curtain on the world from which the First Fleet emerged. Delving into English newspapers, official reports, and government documents from the era, Gardiner vividly captures the squalor of London's slums, the rotting hulks on the Thames where prisoners languished, and the hardscrabble lives of those who would people New South Wales. We meet real-life figures like Prime Minister William Pitt, Home Secretary Lord Sydney, and the Fleet's commander, Captain Arthur Phillip. And we discover a society rife with corruption, violence, and despair. *Before the First Fleet to Australia* paints an unflinching portrait of late 18th century England in all its vulgarity and cruelty. Gardiner's fearless account confronts historical truths often glossed over about the First Fleet's origins. Was this ragged band of convicts a collection of pathetic vagabonds or part of a strategically calculated colonial enterprise? Readers can decide for themselves in this absorbing and revelatory narrative history.

The Founders of Australia Mollie Gillen, 1989 On 13 May 1787 more than 1,500 people sailed with the eleven ships of the First Fleet to become the founders of the modern nation of Australia. After 20 years of research Mollie Gillen has produced the most comprehensive study to date of the people of the First Fleet. Based largely on original sources in Britain and Australia, it functions both as a detailed historical reference work with much new information and also as a very readable social history. Every person who sailed with the First Fleet or was born on board has been included whether a child, convict, sailor, marine or officer. The result is a fascinating series of pen-pictures in a total of 1,442 biographical entries. The background of each first Fleeter is examined (including the circumstances of the crime and trial of each convict) as well as their lives after 1788 as they spread through New South Wales, Norfolk Island, Van Diemen's land and in some cases, returned to England ... The book includes extensive explanatory notes, is fully indexed with a number of maps, illustrations, and the facsimile signatures and marks of hundreds of First Fleeters. Twelve appendices include abstracts of biographical information, descriptions of the First Fleet ships and their crews, a chronology of the First Fleet, miscellaneous facts of interest, statistics and the Phantom Fleeters: persons inaccurately claimed in earlier publications to be First Fleeters ...--

Tracing Your Poor Ancestors Stuart A. Raymond, 2020-05-30 “Provides a wealth of information about . . . people who have gone through debt collectives, hospitals, bankruptcy, crime, homelessness—the list is huge.” —UK Historian Many people in the past—perhaps a majority—were poor. Tracing our ancestors amongst them involves consulting a wide range of sources. Stuart Raymond’s handbook is the ideal guide to them. He examines the history of the poor and how they survived. Some were supported by charity. A few were lucky enough to live in an almshouse. Many had to depend on whatever the poor law overseers gave them. Others were forced into the Union workhouse. Some turned to a life of crime. Vagrants were whipped and poor children were apprenticed by the overseers or by a charity. Paupers living in the wrong place were forcibly “removed” to their parish of settlement. Many parishes and charities offered them the chance to emigrate to North America or Australia. As a result, there are many places where information can be found about the poor. Stuart Raymond describes them all: the records of charities, of the poor law overseers, of poor law unions, of Quarter Sessions, of bankruptcy, and of friendly societies. He suggests many other potential sources of information in record offices, libraries, and on the internet. “Packed with incredibly useful reference information which no family historian should be without.” —The Essex Family Historian

Black Convicts Santilla Chingaipe, 2024-10-30 Longlisted for the 2025 Stella Prize Readings Best Books of 2024, Non-Fiction The story of Australia’s Black convicts has been all but erased from our history. In recovering their lives, Santilla Chingaipe offers a fresh understanding of this fatal shore, showing how empire, slavery, race and memory have shaped our nation. ‘The defining read of the decade. This is a work of global significance.’ Meanjin On the First Fleet of 1788, at least 15 convicts were of African descent. By 1840 the number had risen to almost 500. Among them were David Stuurman, a revered South African chief transported for anti-colonial insurrection; John Caesar, who became Australia’s first bushranger; Billy Blue, the stylishly dressed ferryman who gave his name to Sydney’s Blues Point; and William Cuffay, a prominent London Chartist who led the development of Australia’s labour movement. Two of the youngest were cousins from Mauritius—girls aged just 9 and 12—sentenced over a failed attempt to poison their mistress. But although some of these lives were documented and their likenesses hang in places like the National Portrait Gallery, even their descendants are often unaware of their existence. By uncovering lives whitewashed out of our history, in stories spanning Africa, the Americas and Europe, *Black Convicts* also traces Australia’s hidden links to slavery, which both powered the British Empire and inspired the convict system itself. Situating European settlement in its global context, Chingaipe shows that the injustice of dispossession was

driven by the engine of labour exploitation. Black Convicts will change the way we think about who we are.

Authentic Australian Convict & Pioneer History: Recording several thousand names of pioneers and, wherever possible, date of death and place of burial, listed in alphabetical order ,1978

Christian Names in Local and Family History George Redmonds,2004-04-13 Surnames have always provided key links in historical research. This groundbreaking new work shows that first names can also be highly significant for those tracing genealogies or studying communities. Standard works on first names have always concentrated on etymology. George Redmonds goes much further: he believes that every name has a precise origin and history of expansion, which can be regional or even local; up to c. 1700 it may even have centred on one family. This text fully explores the implications of this belief for local and family history, and challenges many published assumptions on the historical frequency of first names.

Colonial Adventure Ken Gelder,Rachael Weaver,2024-10-08 Adventure was one of the grand narratives of colonisation, which saw European powers sending agents off to new and distant worlds. Their journeys didn't always follow a straight line. Some were shipwrecked, lost or marooned; adventure turned into misadventure. Others left the colony as soon as they arrived. Convicts fled to Timor, China, and South America, while bushrangers roamed the country, antagonising colonial authorities. But when adventurers directly served the interests of colonisation, they could be violent, ruthless, and brutally racist, rapaciously seeking profit and property. Many adventurers went wherever ambition took them, killing and dispossessing Aboriginal people and claiming ownership of their lands. By examining colonial adventure narratives in all their rawness and complexity, this book asks us to reflect on the continuing legacies of colonisation in Australia today.

Child Convicts Janette Brennan,2015-11-10 A stark and intriguing portrayal of life for the youngest convicts who populated the Australian colonies more than two hundred years ago. At the age of seven, children in eighteenth-century Britain were tried in court like adults. For crimes such as picking pockets or stealing clothes, they could be sentenced to death by hanging or transported to the then-perilous and isolated colonies of Australia. Life in the colonies was often as difficult and dangerous as the poverty from which many of the convicts came, but the dreaded sentence of transportation could also present opportunities. In a fascinating volume filled with historical photos and drawings, today's young readers can consider anecdotes of youthful prisoners from long ago, whose new lives on the shores of Australia ran the gamut from the boy who became the first person hanged on its soil to the girl whose photo is now on the twenty-dollar note. Back matter includes a glossary, bibliography, index, and web resources.

The English Convict Hulks 1600s - 1868 Mick Davis,2024-07-30 In the seventeenth and eighteenth centuries, Britain had eased its problem of crowded jails and surplus criminals by packing them into ships and sending them off to the American colonies to be sold as what nearly amounted to slave labor. All this came to an end with the revolution of 1776 and the legal system was stuck with an ever-increasing army of desperate felons. As there was no national prison system, these felons

were crammed on to derelict sailing ships, the hulks, and put to hard labor in appalling conditions, mainly along the rivers Thames and Medway. Their story has been largely ignored by generations of historians and here, for the first time, detailed accounts of their plight, along with the lives and careers of the quite extraordinary men who ruled over them, is examined. Duncan Campbell, for instance, was the ship's captain and plantation owner who first organized the hulk system, and Aaron Graham the magistrate who spied upon, and then defended, the leader of the Nore mutiny and employed William Bligh of the Bounty mutiny to captain his ships. There are biographies of some of the colorful rogues, children and gentleman thieves who were crammed together and condemned to spend years in despair, starvation and degradation, often with their arms and legs manacled and subject to vicious punishments for minor infringements of the regulations. In theory, the hulks were simply holding pens until convicts could be shipped off to the new colonies in Australia, but many sentenced to be transported for terms of between seven years to life were destined to serve most of, if not all, their term onboard. Those that did make it to the other side of the world after a harrowing journey were seldom better off and their story is told in the final chapter.

Johnny Wallman's Travel Bucket List 2019 Johnny wallman,2020-02-17 I decided to spend 2019, each month, taking trips to places I had always wanted to visit. From the poignant visit to my uncle's World War One grave near Gueudcourt France to Saint Exupery Airport in Lyon, named after the author of 'The Little Prince', my favourite book. From Basel to Blackpool to Bondi, Bancourt to Berlin, Krakow to Kfar Blum to Canberra and Melbourne, Tel Aviv, Jerusalem, Amsterdam, Annan Scotland. These trips, covering over 35,000 miles, became my travel bucket list. In addition to these trips the year was filled with memorable events from VIP Manchester City hospitality to Pink Floyd cover band concerts, Alzheimer's charity walk and more. With fantastic experiences and memories. I hope that through my stories, you can feel the highs and lows, the deep emotions. Along with the tales of my experiences are travel tips should you too decide to visit the destinations.
