Charles Barber

Eccentric Renaissance Charles Barber, 2024 Eccentric Renaissance shows how El Greco and two other sixteenth-century Cretan artists, Michael Damaskenos and Georgios Klontzas, actively engaged in a re-casting of the Byzantine tradition of icon painting on the Venetian colony of Crete. In so doing, they created art that articulated a point of view that was shaped outside of and against the hegemonic world of Vasari's account of art history. Building upon their own tradition, they developed a highly original understanding of the icon and explored its power to reconcile Byzantine and Renaissance styles of painting and provide a response to the growing presence of Islam.

Images of the Byzantine World Angeliki LyMBEROpoulou, 2016-12-05 The main themes of this volume are the identification of 'visions', 'messages', and 'meanings' in various facets of Byzantine culture and the possible differences in the perception of these visions, messages and meanings as seen by their original audience and by modern scholars. The volume addresses the methodological question of how far interpretations should go - whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context. As the essays span a wide chronological era, they also present a means of assessing the relative degrees of continuity and change in Byzantine visions, messages and meanings over time. Thus, as highlighted in the concluding section, the book discusses the validity of existing notions regarding the fluidity of Byzantine culture: when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances, and it shows that in some respects, Byzantine cultural history may have been less fragmented than is usually assumed. Similarly, by reflecting not just on new interpretations, but also on the process of interpreting itself, the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena.

Icons Robin Cormack, 2007 Byzantine and Russian Orthodox icons are perhaps the most enduring form of religious art ever developed--and one of the most mysterious. This book provides an accessible guide to their story and power. Illustrated mostly with Cretan, Greek, and Russian examples from the British Museum, which houses Britain's most important collection, the book examines icons in the context of the history of Christianity, as well as within the perspective of art history.

Icons of Space Jelena Bogdanović, 2021-07-26 Icons of Space: Advances in Hierotopy brings together important scholars of Byzantine religion, art, and architecture, to honour the work of renowned art historian Alexei Lidov. As well as his numerous publications, Lidov is well known for developing the concept of hierotopy, an innovative approach for studying the creation of sacred spaces. Hierotopy and the related concepts of 'spatial icons' and 'image-paradigms' emphasize fundamental questions about icons, including what defines them as structures, spaces, and experiences. Chapters in this volume engage with the overarching theme of icons of space by employing, contrasting, and complementing methods of hierotopy with more traditional approaches such as iconography. Examinations of icons have traditionally been positioned within strictly historical, theological, socio-economic, political, and art history domains, but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi-layered iconic ideas and the lived experiences of the creators and beholders of such spaces. This book contributes to image theory and theories of architecture and sacred space. Simultaneously, it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power. This book will appeal to scholars and students of Byzantine history, as well as those interested in hierotopy and art history.

The Oxford Handbook of Byzantine Art and Architecture Ellen C. Schwartz, 2021-11-19 Byzantine art has been an underappreciated field, often treated as an adjunct to the arts of the medieval West, if considered at all. In illustrating the richness and diversity of art in the Byzantine world, this handbook will help establish the subject as a distinct field worthy of serious inquiry. Essays consider Byzantine art as art made in the eastern Mediterranean world, including the Balkans, Russia, the Near East and north Africa, between the years 330 and 1453. Much of this art was made for religious purposes, created to enhance and beautify the Orthodox liturgy and worship space, as well as to serve in a royal or domestic context. Discussions in this volume will consider both aspects of this artistic creation, across a wide swath of geography and a long span of time. The volume marries older, object-based considerations of themes and monuments which form the backbone of art history, to considerations drawing on many different methodologies-sociology, semiotics, anthropology, archaeology, reception theory, deconstruction theory, and so on-in an up-to-date synthesis of scholarship on Byzantine art and architecture. The Oxford Handbook of Byzantine Art and Architecture is a comprehensive overview of a particularly rich field of study, offering a window into the world of this fascinating and beautiful period of art.

A Sacerdotal Poetics Kathryn Wills, 2023-03-06 This book offers a new way of understanding the old conflict between iconophiles and iconoclasts by exploring the way images in poetry are used by one poet, W. B. Yeats, and his translator, Yves Bonnefoy. Using the phenomenology of Jean-Luc Marion as a tool of interpretation, the book suggests further that translation is a significant act in which one entire theological world of a Protestant poet may become a completely different, Catholic one

when the translation is performed by a culturally Catholic poet. For Bonnefoy, therefore, the act of translation becomes a profound act of hope.

The Painter Angelos and Icon-Painting in Venetian Crete Maria Vassilaki, 2023-04-28 The sixteen studies in this book include six specially translated from Greek and another two published here for the first time. They deal with the art of painting in Crete at a time when the island was under Venetian rule. The main emphasis is on the 15th century and especially on the painter Angelos. More than thirty icons with his signature survive, and at least twenty more can be reliably attributed to him. Angelos was the most significant artist of a particularly significant era. It was at this time that the centre of artistic production migrated from Constantinople, the capital of the Byzantine Empire to Candia, the capital of Venetian-occupied Crete. These studies try to reconstruct the personality of this late Byzantine painter, Angelos, not only through his icons but also through his will (1436), now in the State Archives in Venice. In this context they also explore the status of the Cretan painter in society. The large number of extant Cretan icons clearly indicates the striking increase in production from the 15th century onwards. Similarly, archival documents are used to examine the trade of icons in Crete and the way Cretan artists had to organize their workshops in order to meet the requirements of the market.

Eyes to See Mary E. Green, 2014-10 *Eyes to See: The Redemptive Purpose of Icons* offers the discovery of life-giving spiritual insights found through learning to read the language of religious icons. Written especially for those whose traditions have not included icons, this book introduces eight icons written (painted) by the author. Historical notes, explanation of symbolism, related scriptures for interpretation, and a reflection for each icon deepens understanding and appreciation for the ancient holy images of the Church. The book is eight chapters in length, each describing one of the eight full-color icon plates in the insert.

The Living Icon in Byzantium and Italy Paroma Chatterjee, 2014-03-17 This is the first book to explore the emergence and function of a novel pictorial format in the Middle Ages, the *vita* icon, which displayed the magnified portrait of a saint framed by scenes from his or her life. The *vita* icon was used for depicting the most popular figures in the Orthodox calendar and, in the Latin West, was deployed most vigorously in the service of Francis of Assisi. This book offers a compelling account of how this type of image embodied and challenged the prevailing structures of vision, representation and sanctity in Byzantium and among the Franciscans in Italy between the eleventh and thirteenth centuries. Paroma Chatterjee uncovers the complexities of the philosophical and theological issues that had long engaged both the medieval East and West, such as the fraught relations between words and images, relics and icons, a representation and its subject, and the very nature of holy presence.

Writing the Icon of the Heart Maggie Ross, 2013-02-13 The subtitle of Maggie Ross's new book captures its essence, for it is about silence and our need to behold God. Beholding is a notion that we are in danger of losing. It is often lost in

translation, even by the NRSV and the Jerusalem Bible. Beholding needs to be recovered both in theology and practice. Ross is very aware of poor talkative Christianity. There is a twofold plea to enter into silence--for lack of silence erodes our humanity--and to behold the radiance of God. This is a book full of deep questioning and the testing of our assumptions. Throughout there is a great love for the world and for our humanity, accompanied by sadness that we are so easily distracted We are invited into a silence that is not necessarily an absence of noise, but is a limitless interior space. Ancient texts are used in new and exciting ways, and many of our worship practices are challenged. She is in no doubt that the glory of the human being is the beholding of God. --adapted from a review in The Church Times (London) by Canon David Adam.

Hell in the Byzantine World Angeliki Lymberopoulou, 2020-09-17 The imagery of Hell, the Christian account of the permanent destinations of the human soul after death, has fascinated people over the centuries since the emergence of the Christian faith. These landmark volumes provide the first large-scale investigation of this imagery found across the Byzantine and post-Byzantine world. Particular emphasis is placed on images from churches across Venetian Crete, which are comprehensively collected and published for the first time. Crete was at the centre of artistic production in the late Byzantine world and beyond and its imagery was highly influential on traditions in other regions. The Cretan examples accompany rich comparative material from the wider Mediterranean - Cappadocia, Macedonia, the Peloponnese and Cyprus. The large amount of data presented in this publication highlight Hell's emergence in monumental painting not as a concrete array of images, but as a diversified mirroring of social perceptions of sin.

The Fly in the Ointment: The Mysteries of Mary Magdalene Jennifer Smith, 2014-08-23 Mary Magdalene was the principle witness of the death, burial and resurrection of Jesus as told in the Christian gospels: the grief-stricken scarlet woman at the foot of the cross, clutching her jar of ointment, her hair loose like that of the maenads. Yet by the sixth century, Mary, once called the Tower, had fallen into disrepute as a sinner and prostitute. Mary was never a martyr, but tradition has her exiled to a solitary cave, where she was not a threat to the established church until she emerged after the rediscovery of the heretical Gnostic texts. In these, Mary Magdalene is the beloved companion of Jesus, the disciple who knew the all. As with her predecessor Eve, she bears the sin of desiring knowledge and is condemned for it. The question of whether Mary Magdalene can be identified with Mary of Bethany has become merely another means of reducing her authority. In the gospels, Jesus said that his anointer should be remembered for all generations, yet she remains maligned and undefended--until now.

Knowing Shakespeare L. Gallagher, S. Raman, 2010-10-19 A collection of essays on the ways the senses 'speak' on Shakespeare's stage. Drawing on historical phenomenology, science studies, gender studies and natural philosophy, the essays provide critical tools for understanding Shakespeare's investment in staging the senses.

Reading Skin in Medieval Literature and Culture K. Walter, 2013-03-20 Skin is a multifarious image in medieval culture:

the material basis for forming a sense of self and relation to the world, as well as a powerful literary and visual image. This book explores the presence of skin in medieval literature and culture from a range of literary, religious, aesthetic, historical, medical, and theoretical perspectives.

Two Months on the Nile Stephen Boys Smith, 2025-06-26 British Consul with a long-standing interest in archaeology Thomas Sandwith's account of his two months travelling in Egypt provides a valuable new primary source on a dynamic period in Egyptian history. In January 1893 he began a diary in which he recorded his journey on the Nile aboard a dahabiya. Possessing a keen interest in antiquities and experience in acquiring them during his consular career, he recounts visiting newly discovered archaeological sites and meetings with Egyptologists, providing a unique snapshot of the 'golden age' of Egyptology. His astute descriptions of his journey from Cairo to Aswan and back give a vivid new perspective on the growth of European tourism in British-occupied Egypt and early Egyptian industry. Sandwith's decades-long interest in archaeology and familiarity with the Levant mean this diary – until now on the long-hand pages as he wrote them on the boat – is thus unique among contemporary travel accounts. It is a valuable primary source for scholars interested in the history of the British in the Middle East, the history of travel in the Middle East and the history of archaeology and Egyptology.

A Spectrum of Worldviews Hendrik M. Vroom, 2006-01-01 This book is an introduction to philosophy of religion from the perspective of a religiously pluralistic culture. It deals with introductory questions such as whether we can understand, compare, and judge the insights of others and the ways in which people can speak and think about God. It introduces the classical themes of philosophy of religion - immanent and transcendent ideas of God and (im)personality; transcendence, good, and evil; religion, morality and society - using a distinction between cosmic, acosmic and theistic ideas of the divine. This introduction helps us discover differences and commonalities and thus helps further an emphatic and critical dialogue. This book explores how comparative theology and philosophy of religion can move beyond the dead-end roads of relativism and exclusivism.

Icons of Sound Bissera V. Pentcheva, 2020-11-23 Icons of Sound: Voice, Architecture, and Imagination in Medieval Art brings together art history and sound studies to offer new perspectives on medieval churches and cathedrals as spaces where the perception of the visual is inherently shaped by sound. The chapters encompass a wide geographic and historical range, from the fifth to the fifteenth century, and from Armenia and Byzantium to Venice, Rome, and Santiago de Compostela. Contributors offer nuanced explorations of the intangible sonic aura produced in these places by the ritual music and harness the use of digital technology to reconstruct historical aural environments. Rooted in a decade-long interdisciplinary research project at Stanford University, Icons of Sound expands our understanding of the inherently intertwined relationship between medieval chant and liturgy, the acoustics of architectural spaces, and their visual aesthetics. Together, the contributors provide insights that are relevant across art history, sound studies, musicology, and medieval studies.

Texts and Traditions Beatrice Groves, 2007 Explores Shakespeare's engagement with the religious culture of his time. Through readings of a number of plays - Romeo and Juliet, King John, 1 Henry IV, Henry V, and Measure for Measure, this work explains allusions to the Bible, the Church's liturgy, and to the mystery plays performed in England in Shakespeare's boyhood.
