The Shape of the Gospel Robert C. Tannehill, 2007-02-20 Most of the following essays reveal my interest in the

significance of literary forms--both the short literary forms in the Gospels, such as pronouncement stories, and an entire Gospel as a formed narrative. I am interested in the significance of these forms, not just in literary classification systems . . . . I am interested in literary form as a clue to how the text may engage hearers and readers--impact their thought and life--if they are sensitive respondents. The Gospel stories have been shaped in ways that give them particular potentials for significant engagement. Study of literary form can help us recognize these potentials. --from the Introduction Contents Part I: Gospel Sayings and Stories 1 Tension in Synoptic Sayings and Stories 2 The Pronouncement Story and Its Types 3 Varieties of Synoptic Pronouncement Stories 4 Types and Functions of Apophthegms in the Synoptic Gospels 5 The Gospels and Narrative Literature 6 'You Shall Be Complete--If Your Love Includes All (Matthew 5:48) Part II: The Gospel of Mark 7 The Disciples in Mark: The Function of a Narrative Role 8 The Gospel of Mark as Narrative Christology 9 Reading It Whole: The Function of Mark 8:34-35 in Mark's Story Part III: Paul's Gospel 10 Paul as Liberator and Oppressor: Evaluating Diverse Views of 1 Corinthians 11 Participation in Christ: A Central Theme in Pauline Soteriology

*St. Luke's Missiology* Harold E. Dollar, 1996 This book touches on the fundamental contributions of Luke's two-volume work revealing how a small Jewish sect became a worldwide movement in one generation. It recognizes the essential unity of Luke-Acts by showing how Luke prepares for the book of Acts. Luke's story of how the gospel moves from the particular to the universal gives insights on the missiological dynamics of early Christianity and provides models for the church and missions today.

**Art of the Story** Swetha Prakash, Storytelling is an emotional and intellectual journey wherein a narrator or performer or teller takes an audience through a new world that is experienced by words, movement, props and story aids. Storytelling has at its heart the story. The story is that unit of information that is a fictional account of event, a conflict, or a transformation. Stories are a way to code knowledge, pass on wisdom and advise. Storytelling allows us to access the deepest realms of our own subconscious and also the collective unconsciousness. It connects us to basic archetypes that can give us an understanding into our own true being and selves. This book connects the reader to the core of Indian storytelling.

**The Narrative Unity of Luke-Acts** Robert C. Tannehill, Tannehill shows how the narrative contributes to the impact of

Luke's literary whole. The study further shows that Luke's use of recurring words, patterns of repetition and contrast, irony, pathos, and many other features of this narrative contribute to the total fabric of Luke's masterpiece.

**Hit the Headlines** Colin Macfarlane, 2012-05-16 Hit the Headlines charts out a series of fun and inspiring, cross-curricular journalism workshops that enhance key skills and confidence in areas such as: Writing and editing. Critical assessment. Interviewing and observation. Mental flexibility and resourcefulness. Role-playing and teamwork. This book will enable teachers of 9 - 15 year-olds to involve their students in a number of effective and well-tested exercises, games and scenarios, which will encourage them into enthusiastically seeking out and gaining further knowledge in areas such as news, journalism, social issues, IT, data assessment, 'intelligent observation', and enhanced questioning and listening. This is 'organic learning' at its best! An introduction to the theory behind the book summarises short and long term learning outcomes which your students can achieve through these methods, explaining why scenarios which feel 'real' can immerse students and inspire them to achieve greater proficiency. The author also flags up particular aspects of the book which encourage readers to read and use it systematically, as well as to take on specific challenges themselves in order to better assist their students in the writing and editing challenges it contains. Practical photocopiable templates for many chapters are provided, which can be used as classroom (and out-of classroom) exercises, examples and solutions to exercises. Through these engrossing journalistic scenarios, students will learn how to critically assess levels of 'interest and importance' of diverse facts, and so begin to understand that report or presentation writing of any sort involves sequencing a critical balance between these two factors. Readers and users of this book can go on to customise their own scenarios, drawing on the stimulating techniques outlined to improve their students' factual writing and related thinking skills. In particular, classroom teachers in primary, middle and secondary schools and all literacy co-ordinators will find this book extremely useful, as well as students studying for PGCEs and NQTs.

**How Do I Get Them to Write?** Karen Filewych, 2017-05-15 This remarkable book shows teachers how to inspire students to learn to write and write to learn. Committed to the premise that all students can learn to write with appropriate teaching, modelling, and practice, it argues that reading and writing go hand in hand. Through reading, writing and the inevitable discussions that follow, students learn from the experiences of others, open their minds to many possibilities, gain a glimpse into new worlds, make connections to their lives, and reflect on their own choices and learning. This practical book shows you how to use freewriting and powerful mentor texts to create classrooms where students enjoy putting pencil to paper and taking the necessary risks to grow and flourish as writers.

**Connections and Influence in the Russian and American Short Story** Jeff Birkenstein, Robert C. Hauhart, 2021-03-10 In *Connections and Influence in the Russian and American Short Story*, editors Robert C. Hauhart and

Jeff Birkenstein have assembled a collection of eighteen original essays written by literary critics from around the globe. Collectively, these critics argue that the reciprocal influence between Russian and American writers is integral to the development of the short story in each country as well as vital to the global status the contemporary short story has attained. This collection provides original analyses of both well-known Russian and American stories as well as some that might be more unfamiliar. Each essay is purposely crafted to display an appreciation of the techniques, subject matter, themes, and approaches that both Russian and American short story writers explored across borders and time. Stories by Gogol, Dostoevsky, Turgenev, Chekhov, and Krzhizhanovsky as well as short stories by Washington Irving, Faulkner, Langston Hughes, Richard Wright, Ursula Le Guin, Raymond Carver, and Joyce Carol Oates populate this essential, multivalent collection. Perhaps more important now than at any time since the end of the Cold War, these essays will remind readers how much Russian and American culture share, as well as the extent to which their respective literatures are deeply intertwined.
