The Classical Music Lover's Companion to Orchestral Music Robert Philip, 2018-01-01 An invaluable guide for lovers of classical music designed to enhance their enjoyment of the core orchestral repertoire from 1700 to 1950 Robert Philip, scholar, broadcaster, and musician, has compiled an essential handbook for lovers of classical music, designed to enhance their listening experience to the full. Covering four hundred works by sixty-eight composers from Corelli to Shostakovich, this engaging companion explores and unpacks the most frequently performed works, including symphonies, concertos, overtures, suites, and ballet scores. It offers intriguing details about each piece while avoiding technical terminology that might frustrate the non-specialist reader. Philip identifies key features in each work, as well as subtleties and surprises that await the attentive listener, and he includes enough background and biographical information to illuminate the composer's intentions. Organized alphabetically from Bach to Webern, this compendium will be indispensable for classical music enthusiasts, whether in the concert hall or enjoying recordings at home.

Avengerworld - The Avengers in Our Lives Alan Hayes, 2016-02-21 The Avengers was a revolutionary series that always playfully twisted perceptions, pushed the boundaries of its genre and defied those who wished to pigeonhole it. The team

behind *The Avengers* never forgot its primary objective was to entertain. And entertain it certainly did, inspiring successive generations to welcome *The Avengers* into their hearts. Right from its foreword by pioneering television historian Dave Rogers to its afterword by Jason Whiton of *SpyVibe*, *Avengerworld* celebrates the series, its international fandom and its fans. Over the course of more than forty essays, *Avengers* fans the world over relate how they first encountered the series, how they grew up with it at their sides, made friends, engaged with fandom and were inspired to do extraordinary things. Proceeds from this book will be donated to *Champion Chanzige*, a charity organisation that exists to improve conditions for underprivileged children at a primary school in Southern Tanzania - and helps them to do extraordinary things too.

The Children's Hour Julia Erhart, 2024-05-14 Based on a play by Lillian Hellman, *The Children's Hour* (1961) was the first mainstream commercial American film to feature a lesbian character in a leading role. It centres on a teacher at a girls' school (*Shirley MacLaine*) who is accused of harbouring feelings for her co-worker (*Audrey Hepburn*) and depicts the intense moral panic that ensues. Produced in the social climate of the *Lavender Scare*, the film reveals deep insights into the politics of sexuality and censorship in midcentury America, only a few years before more visible struggles for queer liberation. The director, *William Wyler*, lobbied hard to get the film made after an earlier straight-washed version in 1936. The tense road to production included debates about whether to eliminate mentions of lesbianism from the script and how implicitly queer subject matter might conflict with the *Production Code*, by then weakened but still in force. Julia Erhart's reading of the film's conception, production, and reception advances a nuanced case of censorship as a productive force. While contests

between Hellman and Wyler suppressed scenes of overt affection between main characters Karen and Martha, reception was comparatively fixated on the characters' lesbianism: it threatened middlebrow movie critics in the mainstream press and resonated with queer audiences. Erhart's attentive interpretation of both the script and the sonic landscape yields a detailed analysis of the soundtrack as an original pro-lesbian element. As issues of queer censorship continue to permeate life and culture more than fifty years later, Erhart demonstrates that *The Children's Hour* is as salient to social and political tensions around gender and sexuality today as it was in the 1960s.

Nationalist and Populist Composers Steve Schwartz, 2017-12-22 Populism and nationalism in classical music held a significant place between the world wars with composers such as George Gershwin, Aaron Copland, and Leonard Bernstein creating a soundtrack to the lives of everyday Americans. While biographies of these individual composers exist, no single book has taken on this period as a direct contradiction to the modernist dichotomy between the music of Stravinsky and Schoenberg. In *Nationalist and Populist Composers: Voices of the American People*, Steve Schwartz offers an overdue correction to this distortion of the American classical music tradition by showing that not all composers of this era fall into either the Stravinsky or Schoenberg camps. Exploring the rise and decline of musical populism in the United States, Schwartz examines the major works of George Gershwin, Randall Thompson, Virgil Thomson, Aaron Copland, Roy Harris, Kurt Weill, Morton Gould, and Leonard Bernstein. Organized chronologically, chapters cover each composer's life and career and then reveal how key works participated in populist and nationalist themes. Written for the both the scholar and amateur enthusiast interested in modern classical music and American social history, *Nationalist and Populist Composers* creates a contextual frame through which all audiences can better understand such works as *Rhapsody in Blue*, *Appalachian Spring*, and *West Side Story*.
