Tracing the Boundaries Between Hindi and Urdu Christine Everaert, 2010 This book sheds light on the complex relationship between Hindi and Urdu. Through a detailed reading of a representative set of 20th century short stories in both languages, the author leads the reader towards a clear definition of the differences between Hindi and Urdu. The full translations of the stories have been extensively annotated to point out the details in which the Hindi and Urdu versions differ. An overview of early and contemporary Hindi/Urdu and Hindustani grammars and language teaching textbooks demonstrates the problems of correctly naming and identifying the two languages. This book now offers a detailed and systematic database of syntactic, morphological and semantic differences between the selected Hindi and Urdu stories. A useful tool for all scholars of modern Hindi/Urdu fiction, (socio-)linguistics, history or social sciences.

Urdu/Hindi: An Artificial Divide Abdul Jamil Khan, 2006 The lingua franca of the Indo-Pakistani people is one language, claims Khan, called Hindi when written in Nagari and Urdu when written in Arabic. He says it is not descended from Sanskrit, as conventionally believed, but is 10-12,000 years old and was influenced early by the Austric-Munda and Dravidian language families. Leaving aside any religious

Hindi Nationalism (tracks for the Times) Alok Rai, 2001 This tract looks at the politics of language in India through a study of the history of one language Hindi. It traces the tragic metamorphosis of this language over the last century, from a creative, dynamic, popular language to a dead, Sanskritised, dePersianised language manufactured by a self-serving upper caste North Indian elite, nurturing hegemonic ambitions. From being a symbol of collective imagination it became a signifier

of narrow sectarianism and regional chauvinism. The tract shows how this transformation of the language was tied up with the politics of communalism and regionalism.

Writing Resistance Laura R. Brueck, 2014-05-27 Writing Resistance is the first close study of the growing body of contemporary Hindi-language Dalit (low caste) literature in India. The Dalit literary movement has had an immense sociopolitical and literary impact on various Indian linguistic regions, yet few scholars have attempted to situate the form within contemporary critical frameworks. Laura R. Brueck's approach goes beyond recognizing and celebrating the subaltern speaking, emphasizing the sociopolitical perspectives and literary strategies of a range of contemporary Dalit writers working in Hindi. Brueck explores several essential questions: what makes Dalit literature Dalit? What makes it good? Why is this genre important, and where does it oppose or intersect with other bodies of Indian literature? She follows the debate among Dalit writers as they establish a specifically Dalit literary critical approach, underscoring the significance of the Dalit literary sphere as a counterpublic generating contemporary Dalit social and political identities. Brueck then performs close readings of contemporary Hindi Dalit literary prose narratives, focusing on the aesthetic and stylistic strategies deployed by writers whose class, gender, and geographic backgrounds shape their distinct voices. By reading Dalit literature as literature, this study unravels the complexities of its sociopolitical and identity-based origins.

English Heart, Hindi Heartland Rashmi Sadana, 2012-02-02 English Heart, Hindi Heartland examines Delhi's postcolonial literary world—its institutions, prizes, publishers, writers, and translators, and the cultural geographies of key neighborhoods—in light of colonial histories and the globalization of English. Rashmi Sadana places internationally

recognized authors such as Salman Rushdie, Anita Desai, Vikram Seth, and Aravind Adiga in the context of debates within India about the politics of language and alongside other writers, including K. Satchidanandan, Shashi Deshpande, and Geetanjali Shree. Sadana undertakes an ethnographic study of literary culture that probes the connections between place, language, and text in order to show what language comes to stand for in people's lives. In so doing, she unmasks a social discourse rife with questions of authenticity and cultural politics of inclusion and exclusion. *English Heart, Hindi Heartland* illustrates how the notion of what is considered to be culturally and linguistically authentic not only obscures larger questions relating to caste, religious, and gender identities, but that the authenticity discourse itself is continually in flux. In order to mediate and extract cultural capital from India's complex linguistic hierarchies, literary practitioners strategically deploy a fluid set of cultural and political distinctions that Sadana calls "literary nationality." Sadana argues that English, and the way it is positioned among the other Indian languages, does not represent a fixed pole, but rather serves to change political and literary alliances among classes and castes, often in surprising ways.
